**Becoming Japanese** Leo T. S. Ching, 2001-06-30 In 1895 Japan acquired Taiwan as its first formal colony after a resounding victory in the Sino Japanese war For the next fifty years Japanese rule devastated and transformed the entire socioeconomic and political fabric of Taiwanese society In *Becoming Japanese* Leo Ching examines the formation of Taiwanese political and cultural identities under the dominant Japanese colonial discourse of assimilation and imperialization from the early 1920s to the end of the Japanese Empire in 1945 *Becoming Japanese* analyzes the ways in which the Taiwanese struggled negotiated and collaborated with Japanese colonialism during the cultural practices of assimilation and imperialization It chronicles a historiography of colonial identity formations that delineates the shift from a collective and heterogeneous political horizon into a personal and inner struggle of becoming Japanese Representing Japanese colonialism in Taiwan as a topography of multiple associations and identifications made possible through the triangulation of imperialist Japan nationalist China and colonial Taiwan Ching demonstrates the irreducible tension and contradiction inherent in the formations and transformations of colonial identities Throughout the colonial period Taiwanese elites imagined and constructed China as a discursive space where various forms of cultural identification and national affiliation were projected Successfully bridging history and literary studies this bold and imaginative book rethinks the history of Japanese rule in Taiwan by radically expanding its approach to colonial discourses

**Language Choice and Identity Politics in Taiwan** Jennifer M. Wei, 2008-04-18 Jennifer M Wei argues that construction and perceptions of language and identity parallel sociopolitical transformations and language and identity crises arise during power transitions Under these premises language and identity are never well defined or well bounded Instead they are best viewed as political symbols subject to manipulation and exploitation during socio historical upheavals A choice of language from phonological shibboleth Mandarin or Taiwanese to choice of official language cuts to the heart of contested cultural notions of self and other with profound implications for nationalism national unity and ethno linguistic purism Wei further argues that because of the Chinese Diaspora and Taiwan's connections to China and the United States arguments and sentiments over language choice and identity have consequences for Taiwan's international and transnational status They are symbolic acts of imagining Taiwan's past as she looks forward to the future

**Taiwanese Identity in the 21st Century** Gunter Schubert, Jens Damm, 2012-01-30 As we look to enter the second decade of the 21st century Taiwan's quest for identity remains the most contentious issue in the domestic arena of Taiwanese politics From here it spills over into the cross Strait relationship and impacts on regional and global security Whether Taiwan is a nation state or whether Taiwan has any claim to be a nation state and how Taiwan should relate

to China are issues which have long been hotly debated on the island although it seems that much of this debate is now more focused on finding an adequate strategy to deal with the Beijing government than on the legitimacy of Taiwan's claim to sovereignty as the Republic of China. The collection of chapters in this book shed light on very different aspects of Taiwan's current state of identity formation from historical political social and economic perspectives both domestically and globally. As such it will be invaluable reading for students and scholars of Taiwan studies politics history and society as well as those interested in cross Strait relations Chinese politics and Chinese international relations.

The Idea of China Guoqi Xu, Professor of History Guoqi Xu, 2026-03-24 Xu Guoqi navigates the fraught terrain of Chinese identity arguing that the idea of China has always been constructed and reconstructed in concert with the broader world. China is fundamentally constituted by a shared history and in this way is like all nations not a stable object but rather a never ending process of transnational mythmaking.

**Area Studies in the Global Age** Edith Clowes, Shelly Jarrett Bromberg, 2016-02-29 This interdisciplinary volume is a new introduction to area studies in the framework of whole world thinking. Emerging in the United States after World War II area studies have proven indispensable to American integration in the world. They serve two main purposes: to equip future experts with rich cultural historical and political economic knowledge of a world area in its global context and advanced foreign language proficiency and to provide interested readers with well founded analyses of a vast array of the world's communities. *Area Studies in the Global Age* examines the interrelation between three constructions central to any culture: community, place and identity and builds on research by scholars specializing in diverse world areas including Africa, Central East and North Asia, Eastern and East Central Europe and Latin America. In contrast to sometimes oversimplified globalized thinking the studies featured here argue for the importance of understanding particular human experience and the actual effects of global changes on real people's lives. The rituals, narratives, symbols and archetypes that define a community as well as the spaces to which communities attach meaning are crucial to members' self perception and sense of agency. Editors Edith W. Clowes and Shelly Jarrett Bromberg have put into practice the original mission of US area studies which were intended to employ both social science and humanities research methods. This important study presents and applies a variety of methodologies including interviews and surveys, the construction of databases, the analysis of public rituals and symbols, the examination of archival documents as well as contemporary public commentary and the close reading and interpretation of fiction, art, buildings, cities and other creatively produced works in their social contexts. Designed for advanced undergraduate and beginning graduate students in allied disciplines Clowes and Bromberg's volume will also appeal to readers interested in internationally focused humanities and social sciences.

Presidential Politics in Taiwan Steven M. Goldstein, Julian Chang, 2008 From Honto Jin to Bensheng Ren Shih-jung Tzeng, 2009-05-16 This book attempts to use numerous volumes of mostly unpublished diaries for examining issues

of Taiwanese identity Using the diaries of two Taiwanese intellectuals the author examines how the Taiwanese national consciousness emerged and was reconstructed under the Japanese and Chinese Nationalist rule between 1920 and 1955 suggesting that a multi dimensional Taiwanese national consciousness was created in the 1920s Nevertheless between 1937 and 1945 it was reconstructed by the imperial war mobilization It then underwent a further reconstruction during and after the regime change from Japan to China leading to the emergence of the bensheng ren native Taiwanese consciousness The emerging international Cold War environment enabled the creation of a de facto independent state based on Taiwan size governance which had an impact on shaping the bensheng ren identity 廖正興,2004-06

**Music and Musicology in the Engineering of National Identity in Meiji Japan** Richard Christopher Miller,2004 [China Review International](#),2003 *Representing Atrocity in Taiwan* Sylvia Li-chun Lin,2007 In 1945 Taiwan was placed under the administrative control of the Republic of China and after two years accusations of corruption and a failing economy sparked a local protest that was brutally quashed by the Kuomintang government The February Twenty Eighth or 2 28 Incident led to four decades of martial law that became known as the White Terror During this period talk of 2 28 was forbidden and all dissent violently suppressed but since the lifting of martial law in 1987 this long buried history has been revisited through commemoration and narrative cinema and remembrance Drawing on a wealth of secondary theoretical material as well as her own original research Sylvia Li chun Lin conducts a close analysis of the political narrative and ideological structures involved in the fictional and cinematic representations of the 2 28 Incident and White Terror She assesses the role of individual and collective memory and institutionalized forgetting while underscoring the dangers of re creating a historical past and the risks of trivialization She also compares her findings with scholarly works on the Holocaust and the aftermath of the atomic bombings of Japan questioning the politics of forming public and personal memories and the political teleology of closure This is the first book to be published in English on the 2 28 Incident and White Terror and offers a valuable matrix of comparison for studying the portrayal of atrocity in a specific locale
