Richard Wagner's Beethoven (1870) Richard Wagner, 2014 Despite the enormous and accelerating worldwide interest in Wagner leading to the bicentenary of his birth in 2013 his prose writings have received scant scholarly attention Wagner's book-length essay on Beethoven written to celebrate the centenary of Beethoven's birth in 1870 is really about Wagner himself rather than Beethoven It is generally regarded as the principal aesthetic statement of the composer's later years representing a reassessment of the ideas of the earlier Zurich writings especially *Oper und Drama* in the light of the experience gained through the composition of *Tristan und Isolde* *Die Meistersinger von Nürnberg* and the greater part of *Der Ring des Nibelungen* It contains Wagner's most complete exegesis of his understanding of Schopenhauer's philosophy and its perceived influence on the compositional practice of his later works The essay also influenced the young Nietzsche It is an essential text in the teaching of not only Wagnerian thought but also late nineteenth-century musical aesthetics in general Until now the English reader with no access to the German original has been obliged to work from two Victorian translations This brand new edition gives the German original and the newly translated English text on facing pages It comes along with a substantial introduction placing the essay not only within the wider historical and intellectual context of Wagner's later thought but also in the political context of the establishment of the German Empire in the 1870s The translation is annotated throughout with a full bibliography *Richard Wagner's Beethoven* will be indispensable reading for historians and musicologists as well as those interested in Wagner's philosophy and the aesthetics of music ROGER ALLEN is Fellow and Tutor in Music at St Peter's College Oxford
