

Ludwig van Beethoven

An Introduction

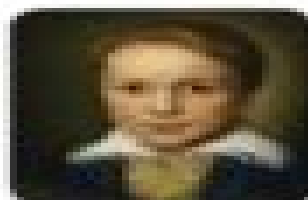

Who was Ludwig van Beethoven?

Ludwig van Beethoven is considered to be one of the world's most accomplished musicians and composers who has ever lived. We do not have any recordings of Beethoven performing his own work, or conducting, but the music he composed has lived on.

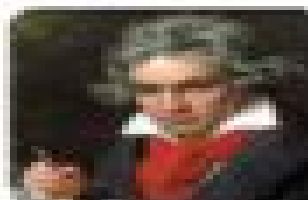

Ludwig was born around December 15th, 1770 in Bonn, Germany. We do not know his exact birthdate, but as he was baptized on December 17th and it was the custom then to baptize babies almost immediately, it was likely he was born in mid-December.

Beethoven died on March 26, 1827 in Vienna, Austria. The years of his life saw great changes in human history, not only in the realm of music, art, and philosophy, but also in social and political history. The American and French Revolutions had a great effect on the western world. The Industrial Revolution, which began in Britain around the same time, had a profound effect on society, and how we live now.

Beethoven was a great composer but he also is an inspiration to people who live with disabilities. In his mid-twenties Ludwig began to lose his hearing and he was completely deaf by the age of forty-six.

Above, a formal painted portrait of Beethoven when he was a young boy, and below, of about fifty years old.

Beethoven's Childhood

When Ludwig was born in 1770, his hometown, Bonn, was part of the Holy Roman Empire. In another hundred years the German states would unite and become one country, as it is today.

Ludwig's parents rented a few rooms in a larger house in Bonn. His father, Johann, was a local musician, as was his grandfather, also named Ludwig. Johann was a music teacher as well, and while the family was not wealthy, they were not desperately poor either.

Ludwig was Johann and Maria Magdalena's second child. Their first son died as a baby; sadly, most families lost at least one child in 18th-century Europe. The Beethovens only had two more children that survived infancy: Nikolaus and Anton.

Ludwig's mother was kind and patient, but his father was difficult to get along with. He had a bad temper and was often drunk. When it became obvious that young Ludwig had musical talent, his father pushed him hard to excel. In Johann's view Ludwig was a child prodigy who could help support the family. Ludwig did not have an easy childhood, but he did have his music, which he loved.

Bonn, Beethoven's hometown, is located in the western part of Germany. During the time of Napoleon, Bonn came under French control and later part of the Kingdom of Prussia. In 1871 it became part of unified Germany.
