## **Before Nature A Christian Spirituality:**

**Before Nature** H. Paul Santmire, 2014 Before Nature caps a set of themes first brought to the fore in Santmire's previous work. Santmire continues the pursuit of a theology bound up with nature and its condition, especially the fragility and fervent expectation of nature's redemption. Santmire invites readers on a theological and spiritual journey to a prayerful and contemplative knowledge of the Triune God in which practitioners are inducted into a bountiful relationship with the cosmic and universal ministry of Christ and the Spirit.

**The Story of Christian Spirituality** Gordon Mursell, 2001 Beautifully illustrated throughout, The Story of Christian Spirituality is a readable and vivid guide to the spiritual riches of one of the world's most influential religions.

**The Nature of Things** Graham Buxton, Norman C. Habel, 2016-11-16 In 2015 a conference on Rediscovering the Spiritual in God's Creation was held at the Serafino winery complex in the McLaren Vale region of South Australia. The aim of the conference was not to seek consensus but to survey the landscape with a view to intentional responsible action in caring for God's creation. Delegates were challenged to recognize their own worldviews and to widen their horizons to encompass the enormity of the transcendence and immanence of God's presence in all creation. A group of leading international scholars and experts in the fields of science, ecology, theology, and ethics participated in a multidisciplinary conversation on the spiritual in creation with the aim of discovering fresh horizons with regard to creation care, liturgy, justice, and discipleship within the Christian community. The chapters in this volume reflect the diversity of perspectives summarized in The Serafino Declaration, which was crafted towards the end of the conference. This declaration, which opens the volume, outlines a range of views relating to the presence of the spiritual in creation, views that are both traditional and radical. This volume highlights the current concern over ecological destruction and finds sources of inspiration in the deepest roots of our traditions and forms of spirituality to sustain efforts towards custodianship of the land and care for God's creation.

Re-Imagining Nature Alister E. McGrath, 2016-08-01 Reimagining Nature is a new introduction to the fast-developing area of natural theology, written by one of the world's leading theologians. The text engages in serious theological dialogue whilst looking at how past developments might illuminate and inform theory and practice in the present. This text sets out to explore what a properly Christian approach to natural theology might look like and how this relates to alternative interpretations of our experience of the natural world. Alister McGrath is ideally placed to write the book as one of the world's best-known theologians and a chief proponent of natural theology. This new work offers an account of the development of natural theology throughout history and informs of its likely contribution in the present. This feeds in current debates about the relationship between science and religion and religion and the humanities. Engages in serious theological dialogue primarily with Augustine, Aquinas, Barth, and Brunner and includes the work of natural scientists, philosophers of
