understand the science of consumer choice and employ techniques that work with a person's brain not against it Zane uncovers the hidden network of connections that dictates the snap decisions we make and cracks the code on how to influence it. With a revolutionary set of rules for expanding the network Zane shows us how to make any brand, business, political candidate or idea the dominant instinctive choice. With science as your guide as well as stories from the world's most successful brands from McDonald's and Lululemon to the Yankees and Taylor Swift, you'll learn what kind of messages create the greatest amount of positive associations.
