With a revolutionary set of rules for expanding the network Zane shows us how to make any brand business political candidate or idea the dominant instinctive choice. With science as your guide as well as stories from the world's most successful brands from McDonald's and Lululemon to the Yankees and Taylor Swift you'll learn what kind of messages create the greatest amount of positive associations. Why finding new customers accelerates growth and relying on existing ones is a trap. Why emotional stories are not enough to drive trial and long term brand loyalty.
