"Active Server Pages is a great way of generating dynamic web pages for a World Wide Web or corporate intranet site. By using ASP, your HTML will be customized to each user's specific needs. The result is more responsive, capable web pages.

If you're looking for a way to create attractive, intelligent web pages, or if you're just looking for a way to extend your HTML knowhow, then ASP is an effective way to achieve your goals. With working examples that you can apply to your own applications, this book will show you how to write web pages with an extra dimension."
