*Breaking the Boundaries* B. Sanyal, 2013-03-09 Exploring the complex arena of international planning for development has until now been uniquely the privilege of influential senior western planners This book calls into question many of their hallowed principles and much of the conventional wisdom still evident in the halls of academe At a time of increasing enrollment of foreign students in North American planning programs the emergence of a new voice has coincided with a growing skepticism worldwide about old notions of planning and development in poorer and ex colonial countries Now there is a need for brave innovations to reshape our understanding of the global crisis and the potential for progressive and democratic local solutions in both rich and poor nations alike This new voice is given expression by academics and professionals from Third World nations who received their planning education in the west and who now hold posts in major western planning schools *Breaking the Boundaries* presents their views and those of concerned colleagues about the need for a radically changed curriculum based on a comparative one world approach to planning education Their personal experiences as young expatriate scholars and later as teachers of both Third World and First World students in western planning schools are seen as crucial to this need for change Through candid reflections and perceptive critiques of their own field the spatial environmental social design and communications disciplines the contributors explore crucial issues in development planning from theoretical and professional practice perspectives [The Routledge Companion to Comparative International Planning](#) Ela Babalik, Andrea I. Frank, Olivier Sykes, 2026-01-30 This companion provides an overview of a rich field of scholarship and practice covering key debates around the purpose and value of comparison as a way of generating knowledge and theory It features examples of comparative studies which explore contemporary issues in planning for sustainable urban and territorial development Across seven parts the book explores questions of why engage in international comparative planning research what planning aspects might be compared and how comparison might be approached Through compelling cases of contemporary comparative research on diverse planning topics including planning systems and governance planning instruments and law urban morphology planning for risk perspectives on informality comparative pedagogy and more readers will gain a wide appreciation of comparative studies and the current state of the field The book comprises 37 chapters by 61 contributors from around the world offering their vital insights into the vibrant and evolving scholarship The companion will be of interest to educators academics and researchers planning practitioners city and municipal governments consultants and advanced students in the fields of city urban and regional planning urban design human geography and urban environmental and international development studies interested in comparing and co learning from global practices and places **Resources in Education** ,1999 [Subject Guide to Children's Books in Print 1997](#) Bowker Editorial Staff, R R Bowker Publishing, 1996-09 *Re-Imagined Universities and Global Citizen Professionals* Shanti George, 2014-01-28 Universities are increasingly criticised for their limited relevance to a globalized and unequal world
