## **Breeze David Dobson Brianhadrians Wall 4e Penguin History:**

The Foundations of History Stephen Leach, 2017-01-24 This book provides an exposition and critical examination of Collingwood's philosophy of history in which Collingwood's views are read in the light of his metaphilosophy. Collingwood's philosophy of history is also located in relation to recent and current philosophy. Although the author argues that Collingwood's conception of the subject matter of history may require some revision, he is generally sympathetic to the aims and methods of Collingwood's project. Indeed, the author hopes to demonstrate that these aims and methods are still of great value.

**The Birth of Territory** Stuart Eeden, 2013-09-09 Political theory professor Stuart Eeden explores the history of land ownership and control from the ancient to the modern world. In 'The Birth of Territory', Territory is one of the central political concepts of the modern world and indeed functions as the primary way the world is divided and controlled politically. Yet territory has not received the critical attention afforded to other crucial concepts such as sovereignty, rights and justice. While territory continues to matter politically and territorial disputes and arrangements are studied in detail, the concept of territory itself is often neglected today. Where did the idea of exclusive ownership of a portion of the earth's surface come from and what kinds of complexities are hidden behind that seemingly straightforward definition? 'The Birth of Territory' provides a detailed account of the emergence of territory within Western political thought. Looking at ancient, medieval, Renaissance and early modern thought, Stuart Eeden examines the evolution of the concept of territory from ancient Greece to the seventeenth century to determine how we arrived at our contemporary understanding. Eeden addresses a range of historical political and literary texts and practices as well as a number of key players: historians, poets, philosophers, theologians and secular political theorists, and in doing so sheds new light on the way the world came to be ordered and how the earth's surface is divided, controlled and administered. 'The Birth of Territory' is an outstanding scholarly achievement, a book that already promises to become a classic in geography together with very few others published in the past decades.

**The Coming of the Saxons** Tony Sullivan, 2025-11-30 Examines the pivotal fifth century arrival of Saxon mercenaries and its impact on Britain's transition from Roman rule. Around the mid-fifth century, three Saxon keels cut through the waves towards the southern coast of Britain. They were not the first Germanic warriors or migrants to arrive, since direct Roman authority had ended in the early fifth century and would not be the last. Yet the arrival of these particular warriors would prove to be a turning point in the history of these islands. The literary sources that survive point to the arrival of these mercenaries and their subsequent revolt as the pivotal event rather than any invasion or mass migration. There have been many books on the Anglo-Saxons. Those that touch on the first arrivals deal only briefly with the fifth and sixth centuries due to the lack of historical records. This book is unique in focusing on the events mentioned by the sources such as Gildas and Bede. It will show that the former Roman Diocese limped on outside direct Roman rule for a generation, beset by constant raiding from Picts and Scots in the north and Saxons and other Germanic pirates in the south. It

will look at Roman practices of hiring and settling mercenaries and Germanic groups across the empire A comparison with these will provide important clues as well as understanding how and why the diocese and provincial structure fell apart allowing petty kingdoms to emerge in the sixth century The subsequent centuries have been termed the Anglo Saxon period This book goes back to the very beginning the *adventus Saxonum* The Coming of the Saxons     *Writing Historical Fiction* Celia Brayfield,Duncan Sprott,2013-12-05 Writing Historical Fiction A Writers Artists Companion is an invaluable companion for a writer working in this challenging and popular literary genre whether your period is Ancient Rome or World War II PART 1 includes reflections on the genre and provides a short history of historical fiction PART 2 contains guest contributions from Margaret Atwood Ian Beck Madison Smartt Bell Ronan Bennett Vanora Bennett Tracy Chevalier Lindsay Clarke Elizabeth Cook Anne Doughty Sarah Dunant Michel Faber Margaret George Philippa Gregory Katharine McMahon Valerio Massimo Manfredi Hilary Mantel Alan Massie Ian Mortimer Kate Mosse Charles Palliser Orhan Pamuk Edward Rutherfurd Manda Scott Adam Thorpe Stella Tillyard Rose Tremain Alison Weir and Louisa Young PART 3 offers practical exercises and advice on such topics as research plots and characters mastering authentic but accessible dialogue and navigating the world of agents and publishers     *The Early Anglo-Saxon Kings* Tony Sullivan,2023-03-09 The book takes a new look at the archaeological and literary evidence and focuses on the fragmenting Diocese provincial and civitas structures of post Roman Britain It places events in the context of increased Germanic immigration alongside evidence for significant continuation of population and land use Using evidence from fifth century Gaul it demonstrates dynamic changes to cultural identities both within and across various groups Covering the migration period it describes the foundation stories of Hengest and Horsa in Kent Cerdic and Cynric first kings of the West Saxons and Ile founder of the kingdom of the South Saxons Ile is the first king Bede describes as holding imperium and the Anglo Saxon Chronicle calls Bretwalda Covering the figures of Ceawlin thelberht and R dwald it ends with the death of Penda the last great pagan king As life under Roman authority faded into history we see the emergence of a warband culture and the emergence of petty kingdoms The mead hall replaced crumbling villas and towns as the center of social life These halls rang with the poems of bards and the stories of great warriors and battles Arthur and Urien of Rheged The famous Mons Badonicus and the doomed charge of the Gododdin at Catraeth A chapter on weapons armor warfare and accounts of contemporary battles will help paint a picture of dark age warfare From the arrival of Saxon mercenaries in the fifth century to the death of Penda the last pagan king at Winwaed in 655     *Britain and its Neighbours* Dirk H. Steinforth,Charles C. Rozier,2021-05-17 Britain and its Neighbours explores instances and periods of cultural contact and exchanges between communities in Britain with those in other parts of Europe between c 500 and 1700 Collectively the twelve case studies highlight certain aspects of cultural contact and exchange and present neglected factors previously overlooked evidence and new methodological approaches The discussions draw from a broad range of disciplines including archaeology history art history iconography literature linguistics and legal history in

order to shine new light on a multi faceted variety of expressions of the equally diverse and long standing relations between Britain and its neighbours Organised chronologically the volume accentuates the consistency and continuity of social cultural and intellectual connections between Britain and Continental Europe in a period that spans over a millennium With its range of specialised topics Britain and its Neighbours is a useful resource for undergraduates postgraduates and scholars interested in cultural and intellectual studies and the history of Britain s long standing connections to Europe
