**Election Meltdown** Richard L. Hasen, 2020-02-04 From the nation's leading expert an indispensable analysis of key threats to the integrity of the 2020 American presidential election As the 2020 presidential campaign begins to take shape there is widespread distrust of the fairness and accuracy of American elections In this timely and accessible book Richard L Hasen uses riveting stories illustrating four factors increasing the mistrust Voter suppression has escalated as a Republican tool aimed to depress turnout of likely Democratic voters fueling suspicion Pockets of incompetence in election administration often in large cities controlled by Democrats have created an opening to claims of unfairness Old fashioned and new fangled dirty tricks including foreign and domestic misinformation campaigns via social media threaten electoral integrity Inflammatory rhetoric about stolen elections supercharges distrust among hardcore partisans Taking into account how each of these threats has manifested in recent years most notably in the 2016 and 2018 elections Hasen offers concrete steps that need to be taken to restore trust in American elections before the democratic process is completely undermined

Integrity Counts Brad Raffensperger, 2021-11-02 Georgia secretary of state Brad Raffensperger recounts his defense of the results of the 2020 presidential election in his state and the surrounding events as well as discussion of events following the 2018 race for governor of Georgia

**Longshot** Zach Graumann, 2022-05-24 In Longshot Andrew Yang's campaign

manager takes you on a tour through the ups the downs and the math of Yang's 2020 campaign for president and shares the playbook his team used to navigate the attention economy Andrew Yang did not win the 2020 Democratic primary let alone the presidency of the United States But chances are you know who Andrew Yang is and you may well be part of the 75 percent of Americans who now support Universal Basic Income both facts that would have seemed beyond unlikely at the start of Yang's campaign That campaign was helmed by Zach Graumann entrepreneur marketing expert and at the time political nonentity In fact when Graumann joined Yang 2020 no one on the team was an expert in campaigning but they all shared a fervent desire to change the future Yet despite that inexperience by the time Yang dropped out of the race in early 2020 he'd not only outlasted six senators four governors and three members of Congress he'd become one of the most recognizable popular political figures in the country Now for the first time Graumann tells the story of how Yang went from nobody to national presence breathing life into the behind the scenes antics of the unusual campaign that started a movement In the process he demystifies the world of political campaigns and provides takeaways that will help not only the next generation of campaign managers but anyone who wants to break into a new industry or stand out in their current one A book for everyone from members of the Yang Gang who want the inside story to businesspeople looking for self improvement to anyone who has ever had a dream that felt bigger than they were Longshot reminds you that sometimes longshots aren't quite as long as you think

*The Campus Rape Frenzy* KC Johnson, Stuart Taylor, Jr., 2018-05-22 In recent years politicians led by President Obama and prominent senators and governors have teamed with extremists on campus to portray our nation

s institutions of higher learning as awash in a violent crime wave and to suggest preposterously that university leaders professors and students are indifferent to female sexual assault victims in their midst Neither of these claims has any bearing to reality But they have achieved widespread acceptance thanks in part to misleading alarms from the Obama administration and biased media coverage led by The New York Times The frenzy about campus rape has helped stimulate and has been fanned by ideologically skewed campus sexual assault policies and lawless commands issued by federal bureaucrats to force the nation's all too compliant colleges and universities essentially to presume the guilt of accused students The result has been a widespread disregard of such bedrock American principles as the presumption of innocence and the need for fair play This book uses hard facts to set the record straight It explores among other things nearly two dozen of the cases since 2010 in which students who in all likelihood would have or have subsequently been found not guilty in a court of law have in a lopsided process been hastily and carelessly branded as sex criminals and expelled or otherwise punished by their colleges often after being tarred and feathered by their fellow students And it shows why all students and eventually society as a whole are harmed when our nation's universities abandon pursuit of truth and seek instead to accommodate the passions of the mob As detailed in the new Epilogue some encouraging events have transpired since this book was first published in October 2016 A majority of the judicial rulings in dozens of lawsuits by male students claiming their schools treated them unfairly and discriminated against them based on their gender have rebuked the schools for their handling of these cases And Education Secretary Betsy DeVos called for fairness to accused students and accusers alike revoked most of the guilt presuming Obama era policies and began a protracted rule making process designed to compel procedural fairness and nondiscrimination      **The Middle East, Abstracts and Index** ,2001      *The Polling Report* ,1996
