*Cracking the Code* Thom Hartmann, 2007 Millions of working Americans talk act and vote as if their economic interests match those of the megawealthy the multinational corporations and the politicians who do their bidding How did this happen Bestselling author Thom Hartmann

says it s because the apologists of the Right have become masters of the subtle and largely subconscious aspects of political communication It s not an escalation in Iraq it s a surge it s not the inheritance tax it s the death tax it s not drilling for oil it s exploring for energy Conservatives didn t intuit the path to persuasive messaging they learned these techniques There is no reason why progressives can t learn them too In *Cracking the Code* Hartmann shows you how Drawing on his background as a psychotherapist and advertising executive as well as a nationally syndicated Air America radio host he breaks down the science and technology of effective communication so you can apply it to your own efforts to counter right wing disinformation As Hartmann explains political persuasion is as much about biology as ideology about knowing how the brain processes information and how that influences the way people perceive messages make decisions and form a worldview Throughout the book he shows you precisely how to master this technology how to crack the communications code providing examples dating from the time of the Founding Fathers to the present day
