Data Loam Johnny Golding, Martin Reinhart, Mattia Paganelli, 2020-12-16 As a reaction to the dominant effect and interpretive authority of the digital, *Data Loam* combines radical approaches based on positions taken in the international practice of contemporary art. Previously, insistence on indexicality and the instrumental reduction of knowledge. Instead, a new metric that requires play, curiosity, experiment and risk. As an urgent response to the continually growing flood of information that libraries, search engines and cultural institutions are exposed to, the authors develop approaches that suggest and permit sensual logic, causal permeability and new forms of man-machine interaction. *Data Loam* focuses on the future of knowledge systems in texts about artificial intelligence, cybernetics and cryptoeconomics as a means of counteracting end-of-the-world fears.

Record Research, 1960 **The Frog Whisperer** Lisa Cuchara, Tom Cuchara, 2018-07-15 Biomedical sciences professor Lisa Cuchara fell head over heels in love with frogs the first time she and her photographer husband Tom were invited to photograph a red-eyed tree frog. Before long the couple was clearing out their space in their home for terrariums full of well-loved amphibians. As it turned out, Lisa's uncanny ability to put frogs at ease set the couple on a new creative path, producing whimsical frog portraits. Through patience, care and plenty of snacks, they have been able to achieve incredible images while keeping their animal friends totally content. In fact, some of their frogs now know that they will be fed after being taken out of their terrarium so they sign to Lisa and Tom or smush their faces up to the glass wanting to be photographed. Whether sitting quietly on a flower or humorously interacting with a carefully selected prop, these frogs are sure to bring a smile to the face of any animal lover.
