

# INTERESTS, IDEAS, AND DEREGULATION

The Fate of Hospital Rate Setting

JOHN E. McDOOUGH

# Interests Ideas And Deregulation The Fate Of Hospital Rate Setting

**Jack A. Meyer**

## **Interests Ideas And Deregulation The Fate Of Hospital Rate Setting:**

Interests, Ideas, and Deregulation John E. McDonough,1997 Studies the politics of rate setting as a mechanism for cost containment in health care     Hospital City, Health Care Nation Guian A. McKee,2023-03-07 Hospital City Health Care Nation recasts the story of the U S health care system by emphasizing its economic social and medical importance in American communities Focusing on urban hospitals and academic medical centers the book argues that the country s high level of health care spending has allowed such institutions to become vital if often problematic economic anchors for communities Yet that spending has also constrained possibilities for comprehensive health care reform over many decades even after the passage of the Affordable Care Act in 2010 At the same time the role of hospitals in urban renewal in community health provision and as employers of low wage workers has contributed directly to racial health disparities Guian A McKee explores these issues through a detailed historical case study of Baltimore s Johns Hopkins Hospital while also tracing their connections across governmental scales local state and federal He shows that health care spending and its consequences rather than insurance coverage alone are core issues in the decades long struggle over the American health care system In particular Hospital City Health Care Nation points to the increased role of financial capital after the 1960s in shaping not only hospital growth but also the underlying character of these vital institutions The book shows how hospitals quest for capital has interacted with structural racism and inequality to shape and constrain the U S health care system Building on this reassessment of the hospital system its politics and its financing Hospital City Health Care Nation offers ideas for the next steps in health care reform

Business History of Hospitals in the 20th Century Paloma Fernández Pérez,2024-06-14 This book offers a business history of modern hospitals in the 20th century Presenting case studies from around the world it examines the long term institutional and historical evolution of hospital organization and management models applying a business history approach to do so Drawing on reports from international organizations and other historical data it explores the evolution path dependencies actors and institutions that have shaped the diversity of hospital organization and management models At the same time it analyzes the historical origins of major problems faced by today s hospitals such as cost inefficiencies lack of specialized human capital etc The contributing authors cover topics such as the history of hospital finance and accounting hospital price regulation entrepreneurship models hospital privatization and hospital governance The book will appeal to scholars and students of economic and business history and to anyone interested in the history of hospitals

**The Corporate Practice of Medicine** James C. Robinson,1999-11-01 One of the country s leading health economists presents a provocative analysis of the transformation of American medicine from a system of professional dominance to an industry under corporate control James Robinson examines the economic and political forces that have eroded the traditional medical system of solo practice and fee for service insurance hindered governmental regulation and invited the market competition and organizational innovations that now are under way The trend toward

health care corporatization is irreversible he says and it parallels analogous trends toward privatization in the world economy The physician is the key figure in health care and how physicians are organized is central to the health care system says Robinson He focuses on four forms of physician organization to illustrate how external pressures have led to health care innovations multispecialty medical groups Independent Practice Associations IPAs physician practice management firms and physician hospital organizations These physician organizations have evolved in the past two decades by adopting from the larger corporate sector similar forms of ownership governance finance compensation and marketing In applying economic principles to the maelstrom of health care Robinson highlights the similarities between competition and consolidation in medicine and in other sectors of the economy He points to hidden costs in fee for service medicine overtreatment rampant inflation uncritical professional dominance regarding treatment decisions factors often overlooked when newer organizational models are criticized Not everyone will share Robinson s appreciation for market competition and corporate organization in American health care but he challenges those who would return to the inefficient and inequitable era of medicine from which we ve just emerged Forcefully written and thoroughly documented *The Corporate Practice of Medicine* presents a thoughtful and optimistic view of a future health care system one in which physician entrepreneurship is a dynamic component *Experiencing Politics* John E. McDonough,2000-11-22 John E McDonough affords a rare glimpse into the practice of state politics in this insider s account of the fascinating interface between political science and real life politics A member of the Massachusetts House of Representatives for thirteen years and a skilled storyteller McDonough eloquently weaves together stories of politics and policy with engaging theoretical models in a way that illuminates both the theory and the practice By providing a link between scholarship and the world of experience he communicates much about the essence of representative democracy In the process he demonstrates how politics extend beyond the public sphere into many aspects of life involving diverse values and interests McDonough describes the nature of conflict the role of interests agenda setting the nature and pace of change the use of language and more Accessible insightful and original his stories touch on a broad range of issues including health care politics campaigns and elections a street gang called the X men the death penalty campaign finance reform and tenants versus landlords To the author politics is everywhere and political dynamics are universal While the setting for this book is one legislature the lessons and insights are intended for everyone

*The New Politics of State Health Policy* Robert B. Hackey,David A. Rochefort,2001 State governments in the past decade have had to take on the problem of health care with mixed results This collection of 11 essays of which two are an introduction and conclusion by academics and policy makers consider the many issues that concern health care in the US and their effects at the state level including managed care health insurance expansion mental health care public health administration and bureaucratic reactions to health policy Hackey teaches health policy and management at Providence College in Rhode Island Rochefort teaches political science and public administration at Northeastern U in Boston c Book

News Inc    **The Political Life of Medicare** Jonathan Oberlander,2003-06 In recent years bitter partisan disputes have erupted over Medicare reform Democrats and Republicans have fiercely contested issues such as prescription drug coverage and how to finance Medicare to absorb the baby boomers As Jonathan Oberlander demonstrates in The Political Life of Medicare these developments herald the reopening of a historic debate over Medicare s fundamental purpose and structure Revealing how Medicare politics and policies have developed since Medicare s enactment in 1965 and what the program s future holds Oberlander s timely and accessible analysis will interest anyone concerned with American politics and public policy health care politics aging and the welfare state    *The Economics and Institutions of Regulation and Reform in the U.S. Hospital Industry, 1980-1996* John Ernest Schneider,2000    *Interests and Ideas in Health Policy* John E. McDonough,1996    **The Corporate Transformation of American Health Care** Laura Anne Schmidt,1999    **The American Economic Review** ,1997    **Health Affairs** ,2002    *Recent Acquisitions* Ohio State University. College of Law.
