Hennessey, 2018-12-11 Every human being is born and has gone through a process of birth Yet the topic of birth remains deeply underrepresented in the humanities overshadowed by a scholarly focus on death This book explores how imagery is used ritualistically in religious secular and nonreligious ways during birth through analysis of a wide variety of art iconography poetry and material culture Objects central to the book s study include religious figurines paintings about birth and other items representative of pregnancy crowning or giving birth that have an historical or original meaning connected to religion Contemporary artists are also creating new art in which they represent birth and mothering as nonreligious events that are sacred or divine Framed through the concept of social ontology which examines the nature of the social world and studies how people create meaning out of the various objects images and processes that make up human social life the book theorizes a social ontology of birth focusing on how the meaning of imagery undergoes metamorphosis between the spheres of religion secularity nonreligion and the sacred when used during birth as a rite of passage Included in the study are more than thirty images of birth some of which have never been written about before **GME Publications and Marketing**
