management **Lead with Imagination** Brian Paradis, 2019-02-05 We have moved past the Information Age and are now living in the Imagination Age Intuitive and creative thinking skills are as valuable as hard skills and are unique to each one of you You have these innate skills all you have to do is unleash them Join up What does imagination have to do with leadership Ever since he was in college Brian Paradis has been intrigued by the question What does imagination have to do with leadership For thirty years he studied this puzzle as he honed his business and leadership skills and one thing became crystal clear imagination has a powerful influence on leadership The compelling combination of leader imagination an opportunity to unleash all kinds of potential The world is increasingly complex knowledge is advancing at an unfathomable rate and the problems in our world seem unsolvable Organizations are in near constant and disruptive transition and the cultures that define them are disconnected disaffected and divisive Too many leaders show up to work wondering if any of it matters We are smarter than any generation in history but that isn t the problem The problem is imagination is not advancing at the same pace But where there s a closed door there s an open window of opportunity for those willing to walk through to take a risk and see what others don t Lead with Imagination promises three returns on your investment of time from reading it You will be inspired by the possibilities and strengthened against the challenges You will gain power and confidence to imagine create and innovate We are all born with innate imagination and curiosity learn how to use it You will release your fullest potential and help release the potential of those you lead We all learned as kindergarteners to assimilate quickly by giving the teacher society the desired answer and to fit in That colored our thinking from that moment forward and restricted our thinking and use of imagination But now it s time to color outside the lines *A History of Management Thought* Morgen Witzel, 2016-12-16 Of all the sciences and social sciences management is the one that most deliberately turns its back on the past Yet management as we know it today did not spring into life fully formed Management has more than just a present it also has a past and a future and all three are inextricably linked This book charts the evolution of management as an intellectual discipline from ancient times to the present day Contemporary management challenges including sustainability
