Bear And Chook Lessons:

Effective Task Instruction in the First Year of School Ilana Mushin, Rod Gardner, Claire Gourlay, 2021-11-29 It is well recognised that classroom teaching is highly complex and that teachers must navigate and negotiate myriad interactions just within a lesson in order to manage the learning opportunities of their students What is less well recognised is precisely how these interactions are managed in real time during actual classroom interactions This book is designed as an original close up account of processes by which children learn to become school learners in their first year of school unpacking some of the recognised complexity of busy classrooms to hone in on what teachers and children do and how learning takes place Using the tools of conversation analysis the authors unpack a range of pedagogical interactions between teachers and children during normal class focusing on procedural instructions and the outcomes of instructed activities By including transcripts of recordings of classes in schools located in diverse communities it is possible to see which aspects of classroom interaction may be impacted by external factors such as children s language or cultural background and which aspects are applicable regardless of such factors The chapters examine teacher instructions and children s behaviour during instructions and during task performance in whole class and small group interactions *Effective Task Instruction in the First Year of School* brings forward a much needed wealth of knowledge into how to teach children in the first year of schooling and beyond in a way that is accessible for practising teachers student teachers as well as education researchers *The Engine* Michael Rachkovsky, 2017-05-31 The philosophical foundation of this novel is the idea that love and aesthetic sense are the most important products of the biological evolution on Earth and maybe even in the Universe Love is the only engine the source and the meaning of human existence and survival in our complex dark and often cruel world When beautiful and talented journalist Michelle Rosen meets geneticist Sam Levitin neither can imagine the exponentially developing and powerful passion that will dramatically transform their lives Their deep and intense affection for each other will see them drawn into the miraculous transcendental spiritual world From Michelles seeming mystical abilities to Sams extraordinary achievement at getting his dog the Saint Bernard Chook to speak both will begin to unravel the amazing mysterious connections that will become the framework of their new experience They will begin to uncover the next step in human evolution and attempt to breach the veil separating us from the Kingdom of the God of Love **Teacher, Teacher** Megan Daley, 2023-07-25 The power of an exceptional teacher cannot be overestimated Sometimes it is not about what they taught you but about how they made you feel as a person *Teacher Teacher* is an anthology of stories showcasing those brilliant educators who have nurtured inspired championed or created change in one student or in a community Edited by award winning teacher librarian Megan Daley of Children s Books Daily and the Your Kid s Next Read podcast these are authentic accounts focusing on both light and more sombre educational journeys of contributors including Jessie Tu Tony Birch Rick Morton Jacqueline Harvey many more Defying the usual stereotypes *Teacher Teacher* provides insight into what makes an exceptional teacher and is a
