saving The analysis is grounded in a methodology in which concepts of European VAT are compared with concepts performing the same function in the Australian and New Zealand GST laws The author concludes with proposals for reform in EU VAT in the light of experience in these two major non EU countries Given that it has been proven that exemptions from VAT such as insurance cause a significant number of economic distortions and inefficiencies this study represents a major contribution to a topical debate in European VAT law It will be welcomed by taxation authorities interested policymakers practitioners and scholars not only in Europe but worldwide **AUSTRALIAN MASTER GST GUIDE 2024** PHILIP.
