taxpayer compliance Research into what shapes and influences taxpayer behavior is critical in that any marginal improvement in understanding and dealing with this behavior can potentially have a dramatic impact upon government revenue Based on Australian data derived from the data bases of the Australian Taxation Office as an example this book presents findings that provide lessons for tax systems around the world Regardless of the type of tax system in place taxpayers of all nationalities are concerned about how their tax authorities deal with non compliance and in particular how the tax authorities go about encouraging compliance and ensuring a fair tax system for all The book presents empirical evidence concerning taxpayer compliance behavior with particular attention being drawn to the moral values of taxpayers the perceived fairness of the tax system and the deterrent measures undertaken by revenue authorities which influence that behavior Other issues examined include the degree to which tax penalties operate as an effective deterrent to curbing behavior and how taxpayers level of general tax knowledge and awareness also impacts upon their actions Research Methods: Masters and PhD Students Handbook Lucky Yona, 2020-12-01 This book is designed specifically for Master s degree and PhD students working on developing their thesis It is a practical book designed to guide students from the initial stages of research proposal preparation to final stages of thesis report writing It further gives proper guidance on how to approach the thesis defense and how one can go further in publication of articles in peer reviewed journals or turning the thesis to a book
