**Australian Tropical Rainforests** Jiro Kikkawa,1990 Based on contributions to a symposium at the 57th ANZAAS congress in 1987 this book describes and interprets the evolution biology and dynamics of Australia's northern rainforests from scientific humanistic and eco political viewpoints Includes references and an index *Phytochemistry of Australia's Tropical Rainforest* Cherryl J. Williams,2021-12-01 Rare unique and irreplaceable precious native rainforests occupy a precariously small part of Australia while retaining a remarkable level of both biological and chemical diversity unrivalled by any other ecosystem Australia's ancient history and traditions are intimately intertwined with the rainforest plants that humans have utilised as both food and medicine Phytochemistry of Australia's Tropical Rainforest is a record of this history and details how our understanding of these plants has led to the discovery of anaesthetics analgesics steroids antimalarials and more It provides an insight into the habitat ecology and family associations of hundreds of species and explores their future therapeutic potential alongside phytochemical studies of the ancient plant lineages Toxicological evaluations of important poisonous plants are also included Rainforests provide shelter for unique flora and fauna that are counted among the rarest species on Earth many of which are illustrated in this book This comprehensive work is an essential reference for phytochemists ethnobotanists and those with an interest in rainforests and their medicinal and botanical potential

**Journeys into the Rainforest (Terra Australis 43)** Åsa Ferrier,2015-11-27 This monograph presents the results of archaeological research that takes a longitudinal approach to interpreting and understanding Aboriginal European contact It focuses on a small but unique area of tropical rainforest in far north Queensland's Wet Tropics Bioregion located within the traditional lands of the Jirrbal Aboriginal people on the Evelyn Tableland The research integrates a diverse range of data sources archaeological evidence recovered from Aboriginal open sites occupied in the pre to post contact periods historical documents of early ethnographers settlers and explorers in the region supplemented with Aboriginal oral history testimony Analyses of the archaeological evidence excavated from three open sites facilitated the identification of the trajectories of culture change and continuity that this investigation focused on Aboriginal rainforest material culture and technology plant subsistence strategies and rainforest settlement patterns Analyses of the data sets demonstrate that initial use of the rainforest environment on the Evelyn Tableland occurred during the early Holocene period with successful adaptation and a change towards more permanent Aboriginal use of the rainforest becoming established in the late Holocene period European arrival and settlement on traditional Aboriginal land resulted in a period of historical upheaval for the Aboriginal rainforest people Following an initial period of violent interactions and strong Aboriginal resistance from the rainforest Jirrbal Aboriginal people continued to adapt and transform their traditional culture to accommodate for the many changes forced upon them throughout the post contact period **Old Fields** Richard J. Hobbs,2012-06-22 Land abandonment is increasing as human influence on the globe intensifies and various ecological social and economic factors conspire to force the cessation

of agriculture and other forms of land management The old fields that result from abandonment have been the subject of much study yet few attempts have been made to examine the larger questions raised by old field dynamics *Old Fields* brings together leading experts from around the world to synthesize past and current work on old fields providing an up to date perspective on the ecological dynamics of abandoned land The book gives readers a broad understanding of why agricultural land is abandoned the factors that determine the ecological recovery of old fields and how this understanding contributes to theoretical and applied ecology Twelve case studies from diverse geographical and climatic areas including Australian rainforest Brazilian Amazonia New Jersey piedmont and South African renosterveld offer a global perspective on the causes and results of land abandonment Concluding chapters consider the similarities and differences among the case studies examine them in the context of ecological concepts and discuss their relevance to the growing field of restoration ecology *Old Fields* is the first book to draw together studies on old fields from both a theoretical and practical perspective It represents an important contribution to the development of theory on old field dynamics and the practice of ecological restoration on abandoned farmland and the broader implications of old field dynamics to ecology and restoration

**Flammable Australia** Ross A. Bradstock,Jann E. Williams,Malcolm A. Gill,2002 Fire is pivotal to the functioning of ecosystems in Australia affecting the distribution and abundance of the continent's unique and highly diverse range of plants and animals Conservation of this natural biodiversity therefore requires a good understanding of scientific processes involved in the action of fire on the landscape This book provides an up to date synthesis of current knowledge in this area and its application in contemporary land management Central to the discussion is an exploration of the concept of the fire regime and its interactions with biodiversity

*Peopled Landscapes* Simon Haberle,Bruno David,2012-01-01 This volume brings together a collection of papers from a diverse field of international scholars exploring the multiple ways that East Timorese communities are making and remaking their connections to land and places of

ancestral significance The work is explicitly comparative and highlights the different ways Timorese language communities negotiate access and transactions in land disputes and inheritance especially in areas subject to historical displacement and resettlement Consideration is extended to the role of ritual performance and social alliance for inscribing connection and entitlement Emerging through analysis is an appreciation of how relations to land articulated in origin discourses are implicated in the construction of national culture and differential contributions to the struggle for independence Publisher's description

*Australian Rainforests* Paul Adam,1992 Once the dominant vegetation type of the entire continent the Australian rainforests have shrunk over many millions of years to their present limited size However the forests and their history continue to hold valuable lessons for biogeographers and environmentalists This book gives a general account of the Australian rainforests their composition and location and how their present

distribution has evolved. The author's aim is to provide a broad biogeographical framework that will enable new information to be considered in a global perspective. The book concludes with a historical account of human interaction with the rainforest from late Pleistocene times to the 1980s. Biogeographers, botanists and ecologists at all levels will find this to be a rich source of information and an inspiration for continuing efforts to conserve existing rainforests around the world.
