## **Authentic Transformation A New Vision Of Christ And Culture:**

*Authentic Transformation* Glen Harold Stassen,Diane M. Yeager,John Howard Yoder,1996 The study of Christian ethics in North America has been profoundly influenced during this century by the work of H Richard Niebuhr That influence is felt nowhere as keenly as in the widespread use of his classic text Christ and Culture Yet certain central flaws exist in Niebuhr s work on Christ and culture particularly in its lack of concrete norms for the church s transformative engagement with the world Scholars have long realized that further work must be done in this area if the church is to speak the word of the gospel adequately in the midst of a pluralistic and changing culture In this book Glen H Stassen D M Yeager and John Howard Yoder push Christian ethical reflection beyond Niebuhr by offering an analysis and critique of Niebuhr s well known fivefold typology of the relation of Christ to culture They wrestle with the issue of how the actual working church goes about being an agent of the transformation of culture Unlike Niebuhr whose description of the transformationist ideal had little grounding in the concrete existence of the church the authors reflect on those practices through which congregations seek both to embody faithfulness to Jesus Christ and to be the church in their culture As a prologue to this analytical and constructive task the volume contains a previously unpublished essay by H Richard Niebuhr Types of Christian Ethics in which he laid out the framework of the typology he would later expand in Christ and Culture

### Transforming Faith

Joshua Leonard Daniel,2015-09-09 In the face of apparently rampant individualism there has been a steady call for a return to community and tradition particularly in religious communities and in recent Christian theology and ethics The form of contemporary life upheld by modern ideals like freedom and universalism the story goes turns out to divide people from each other and from the communal sources of our traditionally moral values But the call to community too often confuses individualism with individuality assuming that any appeal to individuality as a value or ideal is a rejection of communal goods rather than a mode of promoting those goods What s necessary now is a recovery of the individual that understands individuality to serve community even in resistance to it In Transforming Faith Joshua Daniel offers a fresh reading of H Richard Niebuhr s theological ethics that provides an account of individuality and individual creativity as both the fruits and reformers of community What is theologically at stake in Daniel s reconstructive interpretation is the human s existentially resonant relation with God and the christological revitalization of our symbolic and virtuous activity

### Principalities and Powers

Jamie Pitts,2014-08-28 Principalities and Powers is an ambitious analysis of John Howard Yoder s complex sociological theory Jamie Pitts work transcends ideological boundaries which have perplexed the many writers who have approached the legacy of John Howard Yoder after his death in 1997 Although there is much disagreement a broad consensus is forming that his theology was on the one hand focused on the social and political meaning of the New Testament accounts of Jesus Christ and on the other hand sociologically reductive

hermeneutically tendentious and ecclesiologically ambiguous **Principalities and Powers** proposes a revision of Yoder's theology that maintains its broadly sociological emphasis but corrects for its apparent methodological political and metaphysical problems. Specifically, adjustments are made to his social theory to open it to spiritual reality to hone its analytical approach and to clarify its political import. To do so, his preferred framework for social criticism, the theology of the principalities and powers, is examined in the context of his wider work and its critics and then synthesized with concepts from Pierre Bourdieu's influential reflexive sociology.

**Missional Ecclesiologies in Creative Tension** Joon-Sik Park, 2007

In this masterful study of the critical issues in missional ecclesiology, Joon Sik Park reflects on two prominent twentieth century theologians: H. Richard Niebuhr (1894-1962) and John Howard Yoder (1927-1997) and integrates the insights of their respective traditions. Although ecclesiology was a major concern to both Niebuhr and Yoder, their views on the nature and calling of the church were distinct. Whereas Niebuhr, a theologian in the Evangelical and Reformed tradition, was concerned with defining the church in relation to a universal community, Yoder, standing within the Mennonite tradition, was interested in representing the church as an alternative community. Although Niebuhr was reluctant to distinguish the church sharply from the world, Yoder stressed the distinctiveness of the church from the world and considered the Christian faith a decisive difference between believing and unbelieving communities. Seeking to construct an integral missional ecclesiology, Joon Sik Park carefully engages Niebuhr and Yoder and proposes a critical synthesis of their strengths. He holds in creative tension the contradistinctive ecclesiologies of Niebuhr and Yoder by means of Lesslie Newbigin's logic of election, providing a way to overcome an impasse between the two theologians.

**Christianity and Culture** Martin S. Reed, 2002

In over 2 000 years, Christianity has made the overwhelming impact on the culture of the Western world in particular. But culture has also helped to shape the development and form of Christianity since the interaction of two such powerful phenomena cannot help but change the other. This new book brings together over 1200 citations on Christianity and Culture which are indexed by subject title and author for easy access.

**Love and Good Reasons** Fritz Oehlschlaeger, 2003-01-14

This study seeks to articulate a particular moral Christian vision and discover what it entails for reading texts. It tries to bring literary criticism and Christian ethics into discussion with one another.

**Reformed Ecclesiology**

Philip Walker Butin, 1994

Artists, Citizens, Philosophers Duane K. Friesen, 2000

Running through Artists, Citizens, Philosophers is the author's key concern to write a theology of culture from a believers church perspective. Friesen aims to provide an Anabaptist alternative to paradigms of culture offered by such influential thinkers as Ernst Troeltsch and H. Richard Niebuhr. Friesen's innovative approach leads him to suggest that Christians engage the larger culture through the process of transcultural analogical imagination, translating the gospel into our time and place. Christians are called to engage the culture as artists to seek aesthetic excellence, as citizens to shape the common good, and as philosophers to search for wisdom.
