Authenticity, Autonomy and Multiculturalism Geoffrey Brahm Levey, 2015-05-01 The concept of authenticity enters multicultural politics in three distinct but interrelated senses as an ideal of individual and group identity that commands recognition by others as a condition of individuals autonomy that bestows legitimacy on their values beliefs and preferences as being their own and as a form of cultural pedigree that bestows legitimacy on particular beliefs and practices commonly called cultural authenticity In each case the authenticity idea is called on to anchor or legitimate claims to some kind of public recognition The considerable work asked of this concept raises a number of vital questions Should authenticity be accorded the importance it holds in multicultural politics Do its pitfalls outweigh its utility Is the notion of authenticity avoidable in making sense of and evaluating cultural claims Or does it perhaps need to be rethought or recalibrated Geoffrey Brahm Levey and his distinguished group of philosophers political theorists and anthropologists challenge conventional assumptions about authenticity that inform liberal responses to minority cultural claims in Western democracies today Discussing a wide range of cases drawn from Britain and continental Europe North America Australia and the Middle East they press beyond theories to consider also the practical and policy implications at stake A helpful resource to scholars worldwide in Political and Social Theory Political Philosophy Legal Anthropology Multiculturalism and more generally of cultural identity and diversity in liberal democracies today *Interculturalism at the crossroads* Mansouri, Fethi, 2017-05-08

**Multiculturalism in the British Commonwealth** Richard T. Ashcroft, Mark Bevir, 2019-07-12 At publication date a free ebook version of this title will be available through Luminos University of California Press's Open Access publishing program Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more Multiculturalism as a distinct form of liberal democratic governance gained widespread acceptance after World War II but in recent years this consensus has been fractured Multiculturalism in the British Commonwealth examines cultural diversity across the postwar Commonwealth situating modern multiculturalism in its national international and historical contexts Bringing together practitioners from across the humanities and social sciences to explore the legal political and philosophical issues involved these essays address common questions What is postwar multiculturalism Why did it come about How have social actors responded to it In addition to chapters on Australia Britain Canada and New Zealand this volume also covers India Malaysia Nigeria Singapore and Trinidad tracing the historical roots of contemporary dilemmas back to the intertwined legacies of imperialism and liberalism In so doing it demonstrates that multiculturalism has implications that stretch far beyond its current formulations in public and academic discourse Multiculturalism and Interculturalism Nasar Meer, 2016-02-02 Both interculturalism and multiculturalism address the question of how states should forge unity from ethnic cultural and religious diversity But what are the dividing lines between interculturalism and multiculturalism This volume brings together some of the most prominent scholars in the field to address these two different approaches With a Foreword by Charles Taylor and an Afterword by Bhikhu Parekh this

collection spans European North American and Latin American debates **Multicultural Governance in a Mobile World** Anna Triandafyllidou,2018-06-30 Reveals Virginia Woolf's interest in Christianity its ideas and cultural artefacts *Religion in Liberal Political Philosophy* Cécile Laborde,Aurélia Bardon,2017-05-26 Until now there has been no direct and extensive engagement with the category of religion from liberal political philosophy Over the last thirty years or so liberals have tended to analyze religion under proximate categories such as conceptions of the good in debates about neutrality or culture in debates about multiculturalism US constitutional lawyers and French political theorists both tackled the category of religion head on under First Amendment jurisprudence and the political tradition of laïcité respectively but neither of these specialized national discourses found their way into mainstream liberal political philosophy This is somewhat paradoxical because key liberal notions state sovereignty toleration individual freedom the rights of conscience public reason were elaborated as a response to 17th Century European Wars of Religion and the fundamental structure of liberalism is rooted in the western experience of politico religious conflict So a reappraisal of this tradition and of its validity in the light of contemporary challenges is well overdue This book offers the first extensive engagement with religion from liberal political philosophers The volume analyzes from within the liberal philosophical tradition itself the key notions of conscience public reason non establishment and neutrality Insofar as the contemporary religious revival is seen as posing a challenge to liberalism it seems more crucial than ever to explore the specific resources that the liberal tradition has to answer it Groundwork for the Practice of the Good Life Omedi Ochieng,2016-10-14 What makes for good societies and good lives in a global world In this landmark work of political and ethical philosophy Omedi Ochieng offers a radical reassessment of a millennia old question He does so by offering a stringent critique of both North Atlantic and African philosophical traditions which he argues unfold visions of the good life that are characterized by idealism moralism and parochialism But rather than simply opposing these flawed visions of the good life with his own set of alternative prescriptions Ochieng argues that it is critically important to step back and understand the stakes of the question Those stakes he suggests are to be found only through a social ontology a comprehensive and in depth account of the political economic and cultural structures that mark the boundaries and limits of life in the twenty first century It is only in light of this social ontology that Ochieng then proffers an alternative normative account of the good society and the good life which he spells out as emergent from ecological embeddedness social entanglement embodied encounter and aesthetic engenderment At once sweeping and rigorous incisive and subtle original and revisionary this book does more than just appeal to intellectuals and scholars across the humanities and social sciences rather it opens up the academic disciplines to a whole new landscape of exploration into the biggest and most pressing questions animating the human experience Civic Multiculturalism in Singapore Terri-Anne Teo,2019-06-05 This book is about multiculturalism broadly defined as the recognition respect and accommodation of cultural differences Teo proposes a framework of multicultural denizenship that includes group specific rights and intercultural dialogue by problematising three

issues a the unacknowledged misrecognition of non citizens within the scholarship of multiculturalism b uncritical treatment of citizens and non citizens as binary categories and c problematic parcelling of group specific rights with citizenship rights Drawing on the case of Singapore as an illustrative example where temporary labour migrants are culturally stereotyped socioeconomically disenfranchised and denied access to rights accorded only to citizens Teo argues that understandings of multiculturalism need to be expanded and adjusted to include a fluidity of identities spectrum of rights and shared experiences of marginalisation among citizens and non citizens Civic Multiculturalism in Singapore will be of interest to students and scholars of multiculturalism critical citizenship studies migration studies political theory and postcolonial studies

**Passive Patient Culture in India** Supriya Subramani,2025-03-21 In a society shaped by deep inequalities where healthcare and legal systems often reinforce class caste religion and gender hierarchies this book offers a powerful examination of patienthood in India Through its critical approach it seeks to disrupt binaries such as universalistic and particularistic values and data versus theory while decentering normative discourses by foregrounding lived experiences within the context It offers philosophical and conceptual insights that extend far beyond local variations and contexts challenging dominant narratives in global discourses on medical decision making and concepts such as informed consent autonomy and respect This book critiques the archetype of the passive patient entrenched in both medicine and law in India an image that undermines agency diminishes self respect and sustains a culture of disrespect Chapters of the book unpacks the intersections of power social categories and patienthood exposing how marginalized communities face everyday indignities in healthcare and law It explores law and medicine s role in maintaining presumed passive patient archetype especially through legal judgements and healthcare encounters This book advocates for reimagining patienthood as centered on self respect recognition and agency arguing that the passive patient is not an isolated phenomenon but an outcome of broader oppressive structures Contributing to robust debates in medical sociology bioethics and social justice this book is essential reading for those interested in the intersections of these fields along with applied ethics health services research and law This book is freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Jurgen Habermas (III) Joan Nordquist,1998 **Contesting the Frontiers** Ullamaija Kivikuru,2001 Gennem indledende refleksioner omkring medier kultur og etnicitet efterfulgt af case studier analyseres og identificeres nogle af de vilk r hvorp borgere i Danmark Norge og Sverige forhandler skaber og konstituerer deres historie deres socialorden og deres kulturelle praksis Self-realization Mark Evans,2007 This book elaborates a plausible and attractive conception of self realisation as an ideal of how one might live well by developing one s talents and capacities which is suitable for the modern age This ideal is a valid concern for modern political theory in that it can contribute to how we can encourage our social and political institutions It explains that the contention of self realisation is a fitting concern for modern times yet seeking a secularised conception removing the

monopoly certain Eastern philosophies seem to have adopted The author demonstrates that utopian ethical and political thinking has value in enriching our imaginations is not on a slippery slope towards a dangerously totalitarian engineering of the soul and can be used to inspire incremental changes to existing institutions and practices in a robustly down to earth conception of the politically feasible

**Autonomy and Identity** Ros Hague,2011-04-06 Autonomy and Identity are key concepts in both political and feminist thought and have played central roles in both fields Although there has been much academic work on both concepts there has arguably been little that has addressed the connections between autonomy and identity Autonomy and Identity seeks to draw innovative links between these concepts in order to develop a new understanding which sees autonomy as a process by which we change and develop our identity It draws on thinkers from the canon of political thought such as G W F Hegel Mary Wollstonecraft J S Mill and Simone de Beauvoir and features illustrative examples drawn from a wide range of contemporary issues including pornography domestic violence and women s citizenship Hague argues that identity is best understood as changing multiple and something we need to take control of ourselves In order to support this version of identity there needs to be a concept of autonomy which emphasises self direction to control our identity Providing valuable insight into the complexities of thinking about linking autonomy to identity this book will be of interest to students and scholars of political science gender studies contemporary political thought and the history of political thought
