Understanding and Applying Assessment in Education Damian Murchan, Gerry Shiel, 2024-04-09 All teachers are responsible for assessing the children they teach and the outcomes of any assessment are important for individual learners, schools and wider education systems. Designed as a pragmatic guide for new teachers and those training to teach, this book is your one-stop shop for understanding assessment in schools. It covers formative and summative approaches used across primary and secondary education, supporting a balanced overview with policy examples drawn from the UK, Ireland and wider international contexts. This updated second edition reflects recent trends in assessment and includes more balanced coverage across primary and secondary age phases with a broader range of examples across curriculum subject areas. A new chapter on the potential of digital assessment for both formative and summative purposes, the impact of the COVID-19 pandemic on assessment in general and examinations in particular. Damian Murchan is Associate Professor in the School of Education at Trinity College Dublin. Gerry Shiel is a Research Fellow at the Educational Research Centre, Dublin, Ireland.

Training to Teach in Primary Schools Jane Medwell, 2015-03-19 Full of practical help and guidance, this is a must-have for primary trainees on school experience whether they are in a school-based or university-based teacher training programme. It begins by helping trainees to plan their own journey through training and beyond. Taking control of their own training in this way supports student teachers to approach the course with confidence and secure their first teaching job. The book provides guidance on adapting to working in school, observing, planning and evaluating in school, teaching on placement, assessing, monitoring and reporting on children's progress, self-evaluation and how to prepare and resolve issues securing the first teaching job and succeeding in the NQT year. For student teachers, the experience of school-based training is exciting but also challenging; this book supports them throughout and prepares them for the journey ahead.
