Labyrinths of Voice Robert Kroetsch, Shirley C. Neuman, Robert Wilson, 1982      *Labyrinths - Voice - Blind Time* Castelli - Sonnabend (New York), 1974      Fulbright Labyrinths Virginia Hall-Milhouse, 2011-11-28 In this provocative work Virginia Milhouse demonstrates how autoethnography combines creative and analytical practices to help bring to consciousness some complex social and political agendas hidden in narratorial writings It demonstrates how an arts based qualitative research method narrative inquiry can be fused with a scientific based quantitative method DMIS IDI and compliment support and or correct each other It also demonstrates how writing as a method of inquiry can be a viable way for researchers to learn about themselves and their research as well as features standards for evaluating creatively and analytically constructed text Further the author s examination of the aesthetics of inner readiness and in betweenness will be very helpful to people doing this kind of self reflexive fieldwork The reader will also appreciate this author s recognition of the importance of combining qualitative and quantitative methodologies something not many writers can do with great success Also this book will be a real contribution to sojourners and others traveling or living abroad The work is very smart and is beautifully and clearly written The labyrinth quote at the beginning of her work is very fitting and certainly promises to illustrate those words
