Mais cela n'a pas ralenti les constructeurs automobiles qui continuent de mettre de l'avant les plans d'électrification. L'actualité dominante vient régulièrement réactiver le thème classique des relations entre les médias et les politiques mais elle relève les exemples les plus caricaturaux de connivences voire de censures. Ces débats tendent à occulter l'essentiel. Les interrelations du champ politique avec l'univers journalistique sont d'autant plus fortes qu'elles sont invisibles prenant les formes apparemment neutres et dépolitisées de l'intervention des services d'état. La politique de sécurité routière fournit un cas idéal pour étudier les transformations des processus de communication et de médiatisation des activités politiques les plus ordinaires depuis les années 1980. Ce livre restitue donc l'histoire de la constitution d'une cause universelle et la manière dont les pouvoirs politiques s'en saisissent pour promouvoir leur action et leur perception publique. Les enquêtes réunies ici montrent comment certaines fractions des champs politique et bureaucratique contribuent à imposer des visions du monde et de l'activité de l'état ajustées aux logiques journalistiques. Cette recherche fait voir le poids des intérêts politiques dans la communication des institutions rompant par là même avec la fausse opposition entre la propagande ou la communication politique jugée politicienne et la communication institutionnelle ou sociale perçue comme plus démocratique.
