The book employs a scholarly yet accessible literary style seamlessly intertwining doctrinal examination with historical context. It serves as a reminder that the Reformed tradition did not see itself as separate from the universal church, though it was principally opposed to Rome. Rather, Olevianus and his tradition argue for a Reformed catholicity rooted in the ancient confession of the church. This new translation by Lyle D Bierma, along with R Scott Clark's historical introduction, will benefit both scholarly and general readers. Charged with federal language, *An Exposition*

explains the Christian faith as the believer's fellowship with God in the covenant of grace. Thus it is significant for its contribution to the development of Reformed covenantal theology. In addition to exhibiting its historical value within the Reformed tradition, readers will be directed as Olevianus had intended toward edification in true and sound piety. **Exposition of the Apostles Creed** James Dodds, 2014-12-18. Almost every heresy that has disturbed the unity of the Church has been advocated by men who appealed to Scripture in confirmation of the doctrines they taught. The true teaching of the Word of God is gathered from careful and continuous searching of the Scriptures, and there is danger of fatal error when conclusions are drawn from isolated passages interpreted in accordance with preconceived opinions. It has been found not only expedient but needful that the Christian Churches should set forth in creeds and confessions the doctrines which they believe the Scriptures affirm. They are bound not only to accept Scripture as the rule of faith but to make known the sense in which they understand it. As unlearned and unstable men wrest and subvert the Sacred Writings, it is fitting that those who are learned and not unstable should publish sound expositions of their contents.
