

LEARN ABOUT YOUR RIGHTS!

The UN Convention on
the Rights of the Child

22

If you have come to a new country because your home country was unsafe, you have the right to protection and support. You have the same rights as children born in that country.

23

If you have any kind of disability, you should have special care, support and education so that you can lead a full and independent life and participate in the community to the best of your ability.

33

The Government should provide ways of protecting you from using, producing or distributing dangerous drugs.

24

You have the right to good quality healthcare (i.e. medicine, hospitals, health professionals). You have the right to clean water, nutritious food, a clean environment and health education so that you can stay healthy. Rich countries should help poorer countries achieve this.

34

You should be protected from sexual exploitation and abuse, including prostitution and involvement in pornography.

25

If you are looked after by local authorities or institutions rather than by your parents, you should have your situation reviewed regularly to make sure you have good care and treatment.

36

You should be protected from any activities that could harm your development and wellbeing.

26

The society in which you live should provide you with benefits of social security that help you develop and live in good conditions (i.e. education, culture, nutrition, health, social welfare). The Government should provide extra money for the children of families in need.

37

If you break the law, you should not be treated cruelly. You should not be put in prison with adults and should be able to stay in contact with your family. The death penalty and life sentences in prison are not allowed for children.

You should live in good conditions that help you develop physically, mentally, spiritually, morally and socially. The Government should help families who cannot afford to provide this.

27

28

You have the right to education. Primary education should be free and required. Secondary education should be accessible to every child. Higher education should be available to everyone on the basis of capacity. School discipline should respect your rights and dignity.

38

If you are under 15, governments should not allow you to join the army or take any direct part in war. Children in war zones should receive special protection.

DO YOU KNOW?
Most governments have agreed in an Optional Protocol to the CRC that children under 18 should not be allowed to join the army.

30

You have a right to learn and use the traditions, religion and language of your family, whether or not these are shared by most people in your country.

39

You should receive special care if you were neglected or abused, were a victim of exploitation or war, or were put in prison.

29

Education should develop your personality, talents, mental and physical abilities. It should prepare you for active participation in a free society, and encourage you to respect your own culture and other people's culture.

40

If you are accused of breaking the law, you must be treated in a way that respects your dignity. You should receive legal help and only be given a prison sentence for most serious crimes.

31

You have the right to rest, have leisure, play and participate in cultural and artistic activities.

41

If the laws in your country are better for children than the articles of the Convention, then those laws should be followed.

32

The Government should protect you from work that is dangerous to your health or development, that interferes with your education or that might lead people to take advantage of you.

42

The Government should make the Convention known to all parents, institutions and children.

2014 Regional Convention Not For Kids:

Child Trafficking in the Indo- Myanmar Region Shukhdeba Sharma Hanjabam, Sapam Dilipkumar, Ningthoujam Rameshchandra, 2020-01-01 Human trafficking is one of the fastest growing illegal trades in the world which affects both developed and developing countries alike This book has come to see the light of the day at this crucial juncture when the issue of human trafficking is rising all over the country The north east region of the country particularly Manipur has been a fertile ground for child trafficking having source transit and destination With rich material sources and insightful analysis it primarily focuses on the issues and challenges in combating child trafficking in the North East India particularly in the state of Manipur which shares a long and porous international boundary with Myanmar **Encyclopedia of the Anthropocene**, 2017-11-27 Encyclopedia of the Anthropocene Five Volume Set presents a currency based global synthesis cataloguing the impact of humanity s global ecological footprint Covering a multitude of aspects related to Climate Change Biodiversity Contaminants Geological Energy and Ethics leading scientists provide foundational essays that enable researchers to define and scrutinize information ideas relationships meanings and ideas within the Anthropocene concept Questions widely debated among scientists humanists conservationists politicians and others are included providing discussion on when the Anthropocene began what to call it whether it should be considered an official geological epoch whether it can be contained in time and how it will affect future generations Although the idea that humanity has driven the planet into a new geological epoch has been around since the dawn of the 20th century the term Anthropocene was only first used by ecologist Eugene Stoermer in the 1980s and hence popularized in its current meaning by atmospheric chemist Paul Crutzen in 2000 Presents comprehensive and systematic coverage of topics related to the Anthropocene with a focus on the Geosciences and Environmental science Includes point counterpoint articles debating key aspects of the Anthropocene giving users an even handed navigation of this complex area Provides historic seminal papers and essays from leading scientists and philosophers who demonstrate changes in the Anthropocene concept over time **Child Marriage, Rights and Choice** Hoko Horii, 2021-11-18 This book addresses the issue of agency in relation to child marriage In international campaigns against child marriage there is a puzzle of agency While international human rights institutions celebrate girls exercise of their agency not to marry they do not recognize their agency to marry Child marriage usually defined as any formal marriage or informal union where one or both of the parties are under 18 years of age is normally considered as forced which is to say that it is assumed that are not capable of consenting to marriage This book however re examines this assumption through a detailed socio legal examination of child marriage in Indonesia Eliciting the multiple competing frameworks according to which child marriage takes place the book considers the complex reasons why children marry Structural explanations such as lack of opportunities and oppressive social structures are important but not exhaustive explanations Exploring the subjective reasons by listening to children s perspectives their stories show that many of them decide to marry for love desire

to belong to the community and for new opportunities and hopes The book then demonstrates how the child marriage framework and indeed the human rights framework in general is constructed on too narrow a vision of human agency One that cannot but fail to respect and promote the agency of all regardless of gender race religion and age This book will be of interest to scholars students and practitioners in the areas of children s rights legal anthropology and socio legal studies
