Information on the mother's alcohol consumption during pregnancy may not be available or may be inaccurate. Furthermore approximately half of children affected by may not exhibit signs until they are preschool or school age. Thus the authors assess emerging enduring markers of prenatal alcohol exposure. The following chapter summarizes data from investigations of the effects of alcohol on neuron microglia interactions based on recent findings which demonstrate that

alcohol causes loss of both neurons and microglia in the developing brain Structural and functional characteristics of neuron microglia interactions are presented as well as the effects of alcohol on various cytokines which play roles in the mechanisms of those interactions The various long term effects of drinking during pregnancy on the immune and the neuroimmune systems of the developing fetus baby and child are also discussed The results suggest that fetal alcohol exposure induces long term defects in the immunity and susceptibility to various infections **Conceiving Risk, Bearing Responsibility**

Abel,2012-12-06 I have written this book because I felt there was a need to bring together in one place the vast amount of research that has been published in the past 10 years concerning alcohol s effects on the conceptus My hope is that this book will be of value to the many clinicians basic research scientists social workers and others who are interested in this important issue The number of such publications continues to grow each year and it was a very difficult task to review even a proportion of them completely While I have cited many of these research studies only

those that in my very subjective opinion warranted extended coverage were discussed In this regard much of my ask was facilitated by the many excellent reviews that have already been written To those whose important contributions have not been discussed or cited I offer my sincere apologies Omission of these publications in most cases reflects my own personal interests or awareness rather than merit
