Thomas Penfield, 2004 The most amazing treasure book ever written giving the locations of well over 100 fabulous fortunes waiting to be found in the ore rich Southwest Thomas Penfield has done years of exhaustive research for Dig Here and has accomplished the Herculean task of separating fact from fiction For the first time lost treasure stories of the Southwest are stripped bare of their legends and lies Each treasure account is preceded by the approximate location estimated total value and authentication Reading sources for each account are also included so you can do additional research on the intriguing stories of these treasures Dig Here is overflowing with lore spellbinding backgrounds driving Western drama and exciting reliable facts *Enemies of Civilization* Mu-chou Poo, 2012-02-01 Enemies of Civilization is a work of comparative history and cultural consciousness that discusses how others were perceived in three ancient civilizations Mesopotamia Egypt and China Each civilization was the dominant culture in its part of the world and each developed a mind set that regarded itself as culturally superior to its neighbors Mu chou Poo compares these societies attitudes toward other cultures and finds differences and similarities that reveal the self perceptions of each society Notably this work shows that in contrast to

modern racism based on biophysical features such prejudice did not exist in these ancient societies It was culture rather than biophysical nature that was the most important criterion for distinguishing us from them By examining how societies conceive their prejudices this book breaks new ground in the study of ancient history and opens new ways to look at human society both ancient and modern     The Bemis History and Genealogy Thomas Waln-Morgan Draper,1900     Ancient Worlds Richard Miles,2011-09-29 Across the Middle East the Mediterranean and the Nile Delta awe inspiring monstrous ruins are scattered across the landscape vast palaces temples fortresses shattered statues of ancient gods carvings praising the eternal power of long forgotten dynasties These ruins the remainder of thousands of years of human civilization are both inspirational in their grandeur and terrible in that their once teeming centres of population were all ultimately destroyed and abandoned In this major book Richard Miles recreates these extraordinary cities ranging from the Euphrates to the Roman Empire to understand the roots of human civilization His challenge is to make us understand that the cities which define culture religion and economic success and which are humanity s greatest invention have always had a cruel edge to them building systems that have provided both amazing opportunities and back breaking hardship This exhilarating book is both a pleasure to read and a challenge to us all to think about our past and about the present     **The Heritage of World Civilizations** Albert M. Craig,2005-03 For undergraduate level World Civilization or World History courses This comprehensive accessible survey of world history has been extensively revised to provide an even more global and comparative perspective on the events and processes that have shaped our increasingly interdependent world Written by leading scholars in their respective fields Heritage of World Civilizations 7 e combines unusually strong and thorough coverage of the unique heritage of Asian African Islamic Western and American civilizations while highlighting the role of the world s great religious and philosophical traditions     **History of Art ...** Elie Faure,1921 The spirit of the forms     The Chautauquan ,1913
