Labyrinths of Democracy Heinz Eulau, Kenneth Prewitt, 1973 **Parliamentary Candidates Between Voters and Parties** Lieven De Winter, Rune Karlsen, Hermann Schmitt, 2020-10-27 This book offers the first comprehensive comparative and coherent perspective on parliamentary candidates in contemporary representative democracy Based on the unique database of the Comparative Candidate Survey project which interrogated parliamentary candidates in more than 30 countries it fills a significant lacuna by focusing on the thousands of ordinary candidates that participate in national elections It examines who the candidates are in terms of their socio demographic background and political career patterns how they were selected by their parties what their policy preference are and whether these are congruent to those held by their voters who they seek to represent and how they intend to do so once elected and what their visions are on representative democracy and party government Last but not least it investigates how they go about reaching out to their potential voters during the election campaign This book will be of key interest to scholars and students of political parties and party politics political elites political communication political participation elections theories of democracy and representation legislative studies voting behaviour and more broadly to European politics as well as to political and policy professionals throughout Europe Custodians of Place Paul George Lewis, Max Neiman, 2009 Custodians of Place provides a new theoretical framework that accounts for how different types of cities arrive at decisions about residential growth and economic development Lewis and Neiman surveyed officials in hundreds of California cities of all sizes and socioeconomic characteristics to account for differences in local development policies This book shows city governments at the center of the action in shaping their destinies frequently acting as far sighted trustees of their communities They explain how city governments often can insulate themselves for the better from short term political pressures and craft policy that builds on past growth experiences and future vision Findings also include how conditions on the ground local commute times housing affordability composition of the local labor force play an important role in determining the approach a city takes toward growth and land use What types of cities tend to aggressively pursue industrial or retail firms What types of cities tend to favor housing over business development What motivates cities to try to slow residential growth Custodians of Place answers these and many other questions **The Threads of Public Policy: a Study in Policy Leadership** Robert Eyestone, 1971 Comparative Biomedical Policy Ivar A. empirical analysis which explains existing political practices or normative analysis which describes ideal political practices

Governmental Responses to Crime: Crime on urban agendas, 1982 *Power in the City* Marion Orr, Valerie C.

Johnson, 2008 A collection of thirteen essays considered classics in the field of urban politics from leading scholar Clarence Stone with new essays by the editors and by Stone himself that contextualize the impact of his previous works and suggest new directions for researchers **Collaborative Strategies for Sustainable Cities** Eric S. Zeemering, 2014-05-09

Baltimore like many other cities around the globe is redesigning local government policy and programs in order to become a more sustainable city Sustainability as a concept guiding public action encourages city officials to integrate policy and programs addressing the economic environmental and social health of the community City governments including Baltimore have adopted plans to integrate this new priority into local policy and program management Reorienting city policy and programs to address an emergent concern like sustainability requires collaboration between city government and various actors and organizations in the community Collaborative Strategies for Sustainable Cities examines how cities define sustainability and form policy implementation networks to integrate sustainability into city programs Using the city of Baltimore to describe and analyze the involvement of the participants in local sustainability efforts in rich detail Eric S. Zeemering argues that when we think about the sustainable city the city government is not the best unit of analysis for our investigations or policy planning Instead policy networks within cities carve out slices of a sustainability agenda define sustainability in their own ways and form implementation networks with city government officials neighborhood and community organizations funders and state and federal agencies in order to achieve specific goals When cities begin to integrate sustainability into policies and programs surveying and understanding competing definitions of sustainability within the community may be central to their success The book's rich array of data including qualitative data from elite interviews and public documents Q methodology and social network analysis will make for an engaging read to scholars of political science or public affairs as well as the interested citizen or policy advocate **Urban Policy Analysis** Terry Nichols

Clark, 1981-12 This particular volume provides significant insights for future research from the standpoints of sociologists and political scientists in reviewing important past research as well as suggesting potential areas of future research will play critical and important linkage between basic research and policy oriented endeavors Perspective Vol 11 No 7 September 1982 the book provides a valuable and comprehensive summary of the state of the art of this subject a necessary reference book for students of urban politics and political decision making this volume constitutes a real contribution to the area of urban political structures their formation and functioning Annals of Regional Science March **Experimental Study of**

Politics, 1979 **The Comparative Study of Political Elites** Robert D. Putnam, 1976 **Handbook of Montana Forms of Local Government** James J. Lopach, 1975 Party Leadership in the States Robert Jack Huckshorn, 1976 The systematic examination of state party leadership and organization based on interviews with party chairmen reviews the legal powers
