**The Turn to Biographical Methods in Social Science** Prue Chamberlayne, Joanna Bornat, Tom Wengraf, 2000

Biographical research methods have become a useful and popular tool for contemporary social scientists. This book combines an exploration of the origins of this field with comparative examples of the ways biographical methods have been applied.

**Biographical Research and New Social Architectures** Lyudmila Nurse, Maggie O'Neill, Lisa Moran, 2024-04-23 What are the building blocks of the new societal architectures after COVID 19? What are the evolving lifestyle patterns, social connections and relationality and what can biographical research bring to explore these unprecedented societal circumstances? This first book in the new series *Advances in Biographical Research* focuses on the place of biographical research in analysing and shaping social futures characterised by physical distancing and isolation, social fragmentation, trauma and vulnerability including breaks in biographical trajectories. Written by experienced and early career researchers, it demonstrates how biographical research responds to new societal architectures theoretically and empirically.

**Biography and social exclusion in Europe** Chamberlayne, Prue, Rustin, Michael, 2002-11-27 Based on 250 life story interviews in seven European Union countries, *Biography and social exclusion in Europe* analyses personal struggles against social exclusion to illuminate local milieus and changing welfare regimes and contexts. Points to challenging new agendas for European politics and welfare beyond the rhetoric of communitarianism and the New Deal. Vividly illustrates the lived experience and environmental complexity working for and against structural processes of social exclusion. Refreshes the interpretive tradition as a teaching and research tool linking macro and micro realities. Students, academic teachers and professional trainers, practitioners, politicians, policy makers and researchers in applied and comparative welfare fields will all benefit from reading this book.

**Discourses, Dialogue and Diversity in Biographical Research**, 2021-05-31 This book explores how narratives are deeply embodied, engaging heart, soul as well as mind through varying adult learner perspectives. Biographical research is not an isolated individual, solipsistic endeavor but shaped by larger ecological interactions in families, schools, universities, communities, societies and networks that can create or destroy hope. Telling or listening to life stories celebrates complexity, messiness and the rich potential of learning lives. The narratives in this book highlight the rapid disruption of sustainable ecologies not only natural, physical and biological but also psychological, economic, relational, political, educational, cultural and ethical. Yet despite living in a precarious and often frightening liquid world, biographical research can both chronicle and illuminate how resources of hope are created in deeper, aesthetically satisfying ways. Biographical research offers insights and even signposts to understand and transcend the darker side of the human condition alongside its inspirations. *Discourses, Dialogue and Diversity in Biographical Research* aims to generate insight into people's fears and anxieties but also their capacity to keep on, keep on and to challenge forces that would diminish them and all our humanity. It provides a sustainable approach to creating sufficient hope in individuals and communities by showing how

building meaningful dialogue grounded in social justice can create good enough experiences of togetherness across difference The book illuminates what amounts to an ecology of life learning and human flourishing in a sometimes tortured fractious fragmented and fragile world yet one still offering rich resources of hope Biography ,1987 **Auto/biography**
