Brunelleschi Executive Intelligence Review Issue:

Brunelleschi Lyndon LaRouche, 2015-12-11 Dec 8 Lyndon LaRouche addressed associates in these terms on Tuesday Dec 1 There are two general subjects which are related ultimately but which are distinctive and I m going to start with the first one on the subject of Filippo Brunelleschi 1377 1446 Now what is not understood generally is what Brunelleschi really was and the depth of his work and the importance of his work for all features of science it was way beyond anything otherwise Others in the same area of work were different but he was very special in this respect and on physical science exceptional absolutely exceptional His breadth of understanding was great When you bring this into play then you have to go back to Charlemagne because you have to realize that there was a crisis which after a great achievement by Charlemagne 742 814 he had a short life actually and the span of his achievement was that his own relatively short life He had headquarters which travelled around the whole area of France and Germany and this process was key to Brunelleschi because he was responding to what Charlemagne had done before And it was a different kind of discovery but all of these discovery periods were divided by phases of degeneration For example Nicholas of Cusa 1401 1464 what happened to him Well after him there was a degeneration of Christianity in that century and beyond So that kind of thing goes on again and again and therefore we cannot really try to derive from experience derive a principle on one principle as such or a few principles You can t do it it doesn t work in history History is a fairly long institution relative to our own modest lives and therefore we have to understand that we are actually operating between phases When Charlemagne was dead the great achievements of Charlemagne disappeared The water system Charlemagne created a water system he did everything It was a complete revolution but when Charlemagne was dead then the religious bodies in Europe destroyed the achievements that Charlemagne had accomplished and it took several generations to get back to what Charlemagne had achieved And it was never fully done itself I mean we had one system of water management in Germany in fact and there was this connection in the water system it was never finished Even in modern times it s still like that

Cold Fusion: Challenge to U.S. Science Policy Lyndon H. LaRouche, Jr., In this report Lyndon LaRouche takes the vicious assaults against researchers in the area of Cold Fusion as the takeoff point for the most thorough review ever undertaken of the history of humanity s struggle for scientific and economic progress against the efforts of ruling oligarchies to suppress or subvert such progress Do not be surprised to discover that whatever you might have previously read or been taught on this subject turns out to have been as close to truthfulness as your typical lying nightly news telecast Expect to have your assumptions and axioms overturned and your future prospects greatly improved as Lyndon LaRouche outlines a new science education policy to accompany a return to the John F Kennedy Moon Mars science driver program

Executive Intelligence Review; Volume 41, Issue 42 Lyndon LaRouche, 2014-10-24 From the Editors Mankind lost a golden opportunity back in 1974 76 when faced with the stark choice between the murderous epidemic causing policy of the IMF and the New World Economic Order being proposed by Lyndon

LaRouche and a host of leaders from the developing sector the world's leading governments stuck with the IMF From that time forward the world economy has been a ticking time bomb coming closer and closer to an explosion of pestilence famine and war This issue of EIR presents an in depth picture of that choice from the perspective of the threshold of choice where we stand today First in our Feature we report on the current Ebola crisis from the standpoint which Lyndon LaRouche forecast back in 1974-75 that the continuation of IMF policies in Africa and other areas of what was then called the Fourth World would lead to a global pandemic crisis threatening civilization and the survival of man himself We review our impeccable record on this subject and the policy proposals which LaRouche and his wife Helga Zepp LaRouche made over a decade ago The conclusion should be obvious People had better listen to LaRouche this time and start to adopt the right policies starting with tossing Obama out of office Second we provide an in depth picture of the fight by LaRouche and his movement for the alternative to the IMF death policy the new world economic order The LaRouche Record Our review will likely surprise you as you learn of the four decades of intellectual interventions by LaRouche with world leaders It should also encourage you as it should lead you to appreciate more fully the long term impact of ideas on the processes of history Today's BRICS process in fact cannot be competently understood without understanding this 40 year battle by the LaRouches and their political movement for a new economic system of which we can only present a reflection here See our archive for much more The third major element of this edition of EIR is little more than a promissory note in the form of a news report on the latest international Schiller Institute conference on A New Paradigm for Mankind held in Frankfurt Germany Oct 18-19 International We will be publishing many of the speeches from that event starting with our next issue

Countdown in August Lyndon LaRouche, 2015-08-07 Aug 3 Lyndon LaRouche insisted on immediate action in the following discussion with the LaRouche PAC Policy Committee today We have an interesting situation he said in the sense that we're getting closer and closer to doomsday that is the point where Obama actually launches thermonuclear war And it's more and more apparent internationally that that's the situation that is converging upon civilization right now And therefore what we have to do is actually stop the trend in that direction We have to get Obama brought under control and removed from the Presidency Without that mechanism it's impossible to save civilization or most of it We're in the greatest danger of humanity in the history of the existence of the human species Therefore we have to think about what we're going to do to get Obama removed from a controlling position in terms of the powers of the United States Without that effect the probability the extreme probability is that there will be an extermination of most of the human population on the planet Because that's what will happen It's almost like a kinetic process where one thing hits the other one part of the planet hits the other parts of the planet they interact they build up they build up in a combination and it becomes uncontrollable And maybe the extinction of the entire human species could occur in this month

Whitaker's Books in Print, 1990 *The Economist*, 1995 **Victory Over Fraud** Lyndon LaRouche, 2016-05-13 The Only Way You Can Win Is The Hard Way May 5 In just a few words spoken

over a few minutes on Tuesday evening May 3 Lyndon LaRouche spelled out starkly what he himself has long known and what every successful architect of victory has known but what others refuse to face He showed that victory is only possible through doing the things that have never been done before indeed never even thought of before based on a totally new original insight You can only win by doing what all the smart people knew was absolutely impossible This is the story of the Inchon Landing of Sept 15 1950 MacArthur told the nay sayers namely the entirety of the U S high command that the very arguments you have made as to the impracticalities involved confirmed his faith in the plan for the enemy commander will reason that no one would be so brash as to make such an attempt MacArthur finished his statement like LaRouche he knew when to finish by whispering I can almost hear the ticking of the second hand of destiny We must act now or we will die But LaRouche's leadership has long been on a profounder level than even the genius MacArthur's Better to think back to MacArthur's friend Gen Charles de Gaulle In his memoirs de Gaulle recalled the moment in 1940 when all the French officials turned their back on his struggle against the treasonous French government at Vichy I felt like someone approaching the ocean he wrote preparing to swim across Yet he did swim across This is almost impossibly difficult but it can be done It must be done even if you can never say in advance how to do it It has been done And Lyndon LaRouche in particular has done it repeatedly and successfully He debated and soundly defeated the chosen representative of the British system in 1971 Impossible Then later through the Strategic Defense Initiative he transformed the incoming U S Reagan Administration into the instrument of what would have been a new world system of peace and dramatic human progress The British tried to assassinate Reagan and went all out to destroy LaRouche They jailed him but couldn't destroy him although his influence was effectively contained for years LaRouche and his wife Helga succeeded in laying the basis for the Eurasian Landbridge Silk Road policy and the BRICS without which humanity would have no prospect for the future Beginning in October 2014 LaRouche set out again to accomplish the impossible He outflanked the resistance and founded a new organization in Manhattan on a new basis prominently including Classical choral work and competent Classical musical performance both of which are linked to a weekly live dialogue with LaRouche It seemed impossible for years every previous attempt had failed But it is demonstrably succeeding and spinning off new organization on a new basis in Northern California in Boston and in a special way in Houston Texas where LaRouche leader Kesha Rogers has vigorously and effectively taken up the fight to revive the Space Program In the referenced Tuesday discussion LaRouche also specified that Right now the question is how will Russia and China survive this situation Because if they don't survive this situation there is not going to be a civilization it just won't happen Now this depends the leading parties that's the only chance You cannot use deductive methods they don't work They can't work under these circumstances You actually are going to depend largely on a contributing factor in which Russia and China are going to play a controlling role The Moral Fitness to Survive Lyndon H. LaRouche, Jr., 2016-02-19 Emergency Action Now Feb 14 Lyndon LaRouche spoke to associates today to this effect You're looking at a general sudden

collapse of the economy of the United States and of Europe in general Right now the situation is that the entire trans Atlantic community is bankrupt hopelessly bankrupt And there s no escape from it everything is going down in bankruptcy unless someone comes along and re organizes the whole system We have the ability to shut down Wall Street now because the feeling of panic in Wall Street is so acute that they will do anything to survive But they won t survive however They can t survive They ll just be gone What I see is a highly probable case of the withdrawal of Obama from the office of the Presidency If someone in the Congress especially the Senate really gets on this thing they have the power to make decisions which would secure the United States from a catastrophic collapse If there are people and I believe there are inside the United States who take that view that I do what we would do is we would go to members of the Congress especially the Senate and we would then operate on the basis of shutting this whole thing down based on a statement that the system is bankrupt and therefore there has to be an immediate U S action which is a Presidential action essentially We will suspend the current President taking emergency action in defiance of this President in order to bring forth a group of people mostly from Congressional circles especially the Senate And if we get some people in the Senate and some others to agree on this thing we can save the United States from bankruptcy That s the real option we need to grab for I certainly know how to do that and I m sure other people also have those talents We re on the edge of the sudden collapse of civilization and what we do is crucial

Executive Intelligence Review's 2nd Berlin Seminar ,2005 **Executive Intelligence Review** Lyndon H. Larouche, Jr.,2015-01-02 From the Editors Our first issue of 2015 looks forward to our adopted mission for this year Defeating the British Empire and bringing the United States and Western Europe into collaboration with the BRICS This mission is coherent with two major anniversaries that the world will celebrate this year First the United States victory over the British Empire and its Confederacy in 1865 which led to the takeoff of U S industrial might and the spread of its model throughout the world Anton Chaitkin s History feature in this issue on the battle in the 1870s U S brings this period to life in a way that should inspire you about what can be done today The world this year also celebrates the 70th anniversary of the Allied victory over Fascism even as the globe is threatened by a fascist upsurge once again Russia and China in particular are commemorating this event with great emotion as they face new aggression from the West Will sane forces in the West reject this resurgence of evil in time The hope lies in the BRICS dynamic which our Feature identifies as of year beginning with a necessarily small snapshot of the dramatic process that is upending power relations over the entire planet and creating the promise of a better life for billions As we have over the last six months we will be focusing heavily on publicizing the BRICS developments and on the political motion in their support which have been subject to unconscionable blackout by the major news media We feature coverage of the war front with Russia in our International section providing an inside view seldom available to English speaking readers of Russia s preparations to defend itself both militarily and economically This view includes our report on a recent event at Dubna University which was keynoted by Lyndon and Helga LaRouche by video The

transcripts of their well received messages are included Under Economics we lead with the imminent threat of a Wall Street blowout likely to be detonated by the crashing oil price All the more urgent that Glass Steagall be put into effect beforehand so that Wall Street speculators are the ones damaged not Main Street Then we can get on with investing in the science mankind needs including in the food supply The prerequisites for that are outlined in an interview with the 2014 World Food Prize winner Sanjaya Rajaram done by our Mexican colleagues Don't miss it [The Opportunity for a New Start](#) Lyndon H. Larouche, Jr., 2016-11-18 A New Conception of What International Relations Are Lyndon LaRouche spoke as follows in discussion with associates on November 10 The whole economic system is not ready to work We've got to get that system functioning not just a few things here and there We've got to pull together a special kind of organization which facilitates the ability of getting more parts of the world in the hands of the other part of the world Otherwise the thing won't work You've got to pull things together If you don't have a connection you don't have a contract What you're going to see on this question is a more complicated thing What you're going to get is an understanding of a new conception of what international relations are That's what is going to happen and that's the way it will work Otherwise it will not work for obvious reasons for those who are familiar with the details of the German and other economies One of the problems is that there is presently no qualified content of developing the relations among these nations You've got to get an actual content which has to be functional That's one of the things we have to work on but that's not in place now The problem is that we do not have a defined international system which will secure peace It doesn't yet exist and we've got to make it It's going to take a lot of work by people to do it because it's not just doing it by name the problem is to understand how that can work This can be done This can be done with the collaboration of some parts of the world as a whole The overall picture is not going to be easy but there are some connections which could be made early But there is a lot to do to get it in the right way of success I wouldn't depend on Trump He's going to do what he's going to do but don't depend on him You have to depend on the creation of a new system not Trump's system but a new system a global system which will meet the requirements of the development of a true international system And you have to organize people on that basis You cannot just say We're going to try to make this thing work It won't work It won't work But we can start I would say Germany Germany has a potential if it wants to do so it probably could make a good contribution What Putin is doing is excellent and it's well integrated China is becoming very well integrated in many respects You're getting development in parts of Asia All these things are in place but you've got to get the mechanism which makes it all come together in a syncretic way Space science is the way that people have to operate because space science incorporates the crucial elements which are lacking from other sources You've got to get into the mind of the present population internationally and nationally you have to get into the mind of that person who has no conception whatsoever of what that mind requires What you can do is you can do things which will prompt development but it's chiefly local development and regional development We've got to get mechanisms of international trade

and agreements thereof and that's what's required urgently right now Odds and ends will not do this So therefore don't try odds and ends You've actually got to get into the gut of the mind of the people of different nations I've had a lot of experience in this thing It doesn't come out because of people who are not really understanding of what this is about but looking in the course of history you would say that I have a very keen insight into humanity But not all the people in it are participating That's the problem *Executive intelligence review* , **As London Launches Operation Chaos** Lyndon H. Larouche, Jr.,2016-10-14 Agents of History Oct 7 On December 1 1998 Jos L pez Portillo the former President of the Republic of Mexico declaimed It is now necessary for the world to listen to the wise words of Lyndon LaRouche That warning that admonition carries more pungency and more urgency today than on the day that it was uttered As events unfold with warnings of an impending financial crash coming from many different sides and numerous individuals it is of utmost importance that all of us listen to the wise words of Lyndon LaRouche In truth none of the trans Atlantic players on the field even among the more insightful have put forward proposals that indicate that they know what it is that must be done Their minds are operating within layers of nested boxes and their solutions are at best piecemeal at worst they are ludicrous Our mission is to represent the highest standard and to fight from the standpoint of history and as allies and friends of Lyndon LaRouche for LaRouche's policy We should advocate and battle for nothing less In a discussion with the LPAC Policy Committee and others on October 7 LaRouche said this laws which I presented Those laws my laws define exactly what solves the problem by creating a standard by which credit is defined This was developed by the Treasurer of the United States Alexander Hamilton This is the only way it will work My national laws those were whose laws Not mine I was the one who set up the standard for that and they didn't do much about it Therefore all you have to do is go for an international program based on that principle the same principle and you've got to get the people of the nations working together to understand what this kind of action is Just read the publications on law by Hamilton He wrote the laws They're written there But people don't do it They talk about something else Therefore they don't understand what makes history what makes history work What I did was actually a mechanism to define the way in which the original system had been established By Hamilton You don't have to do anything else That's what you have to do You're talking about Hamilton's laws and you're talking about my laws That's what you're talking about Don't change the subject Crush the British Foe Lyndon Larouche,2018-05-04 April 29 The stunning process which has become most visible in Korea over the past days and how many were there who expected this even just weeks ago is still far from the complete victory for which we are fighting So far it is still only an embattled outpost The British led attack on Syria two weeks ago was aimed to prevent this progress it damaged it severely and next time if we permit a next time can be much more harmful But even as an embattled outpost the hope which the Korea talks represent has nevertheless swept the world with its inspiration It was perfectly natural that the thousands of supporters at President Trump's Michigan rally on April 28 began to chant No bel No bel when he mentioned Korea Regardless of party or faction there is no one with any shred

of understanding and morality who can fail to find some degree of inspiration from the Korea developments today Recall that the state of declared hostilities on the Korean Peninsula has existed ever since 1950 when the world's population was only 2.5 billion as against 7.6 billion today And only about 7% of those alive today had even been born when that never ending war began And that the Korean War inaugurated that Cold War which dominated the remainder of the terrible 20th Century Equally today the frozen Korea conflict still underpins the British Imperial system of pitting each against all to sustain its world rule What is now first unfolding in Korea has been made possible by the joint and coordinated work of China Japan Russia and the United States with the two Koreas What has finally permitted this is that China Japan Russia and the United States have all undergone profound changes over the recent decades which only now made this form of cooperation possible today where it had never been possible before What caused these changes The new policies of Presidents Xi Putin Trump and Prime Minister Abe Yes but what was in common to all of them There is a spiritual factor As Douglas MacArthur wisely said aboard the battleship Missouri in Tokyo Bay It must be of the spirit if we are to save the flesh Lyndon LaRouche referenced this in his seminal 2004 work The Coming Eurasian World where he wrote What occurs as I have seen thus often even at close quarters in the course of my lifetime the evolution of the collective mind of an entire culture is driven by the spark of the interventions into the entire society through the veil of ambiguity by a relatively few geniuses and by those young people who replicate experience of discovery by geniuses in their own early self development through young adulthood See http://www.larouchepub.com/eiw/public/2004/eirv31n49/20041217/eirv31n49_20041217_004_toward_a_second_treaty_of_westphal.pdf The Coming Eurasian World the next great phase of human evolution of which Lyndon LaRouche prophesied there is now coming into view driven by the sparks of genius which he has scattered through many decades The Korean talks vouchsafe us that it is possible that it can be done Now it stands out clearly before us like the New World to Schiller's Columbus Will we realize it now **Executive Intelligence Review**, 1989 **Four New Laws** Lyndon H. LaRouche, Jr., 2016-08-05 It Begins with LaRouche's Four Laws August 2 Over the last five weeks the world has changed Events combined with willful interventions especially those of Vladimir Putin have created a new global dynamic and transformed the potential for real and total victory in the immediate period ahead Success now depends first on the adoption of LaRouche's Four New Laws a policy set forth in 2014 in his The Four New Laws to Save the U S A Now but long term success requires more than simple adoption of necessary policies even ones as necessary as Glass Steagall and Federal Credit for scientific advancement As LaRouche states in The Four New Laws In principle without a Presidency suited to remove and dump the worst effects felt presently those created presently by the Bush Cheney and Obama Presidencies the United States were soon finished beginning with the mass death of the U S population under the Obama Administration's recent and now accelerated policies of practice And then later A chain reaction collapse to this effect is already accelerating with an effect on the money systems of the nations of that region The present acceleration of a Bail in policy throughout the

trans Atlantic region as underway now means mass death suddenly hitting the populations of all nations within that trans Atlantic region whether directly or by overflow This systemic crisis requires not just a set of policies but a New Presidency one based on a citizenry with a higher devotion one beyond mere electoral politics one similar to that of Benjamin Franklin George Washington and Alexander Hamilton It requires a commitment to the creation of a new nation of a new United States and of a world that has never existed before a world now more possible than ever and a world that now lies in our hands whether it comes to be or we fall short **Executive Intelligence Review; Volume 42, Issue 11** Lyndon

LaRouche,2015-03-13 From the Editors Who is the warmonger asked Helga Zepp LaRouche of her audience in Houston last week It s not Putin she replied and proceeded to review the buildup of provocations coming from NATO and the U S since the fall of the Berlin Wall This week we answer the question in a different way with a fulsome review of the strategic doctrine of the United States which review demonstrates without a doubt that it is the United States that has adopted a British imperial doctrine of provocations against Russia up to and including the potential launching of nuclear war The documents speak for themselves we add some background commentary on their political origins Not surprisingly this policy traces back to the British Empire itself Feature Mrs LaRouche also addresses the war issue again in this issue she it characterizes as a bluff similar to the bluff being wielded by the European Union against Greece International With both these bluffs mankind is put on a dangerous track toward war unless we seize the ready option of joining with the new world economic order being put into motion by the BRICS The promise of the BRICS is presented in two important articles First our review of the Chinese People s Congress which counters the claptrap you are getting about President Xi and that country in other media Economics Second we reprint an exciting programmatic proposal from Russia which appears in our Special Report The New Silk Road Becomes the World Land Bridge Physical Econ omy The kind of high technology industrialization presented there should give you an idea of what progress would actually look like especially if the U S links up with the BRICS You will find reports on other significant developments in our International section in both Europe and Asia We are also pleased to present a review of the recent book by former UN official Antonio Costa famous for his identification of the role of drugs in propping up the world financial system The National section features our report on the insane warmongering in Congress and should be read with the Feature in mind Last but not least we turn to Science this week presenting a pro vocative discussion of the scientific method of Nicholas of Cusa which was carried forward by Johannes Kepler in his crucial breakthroughs on the nature of the Solar System and man s role in it It is on Cusa s level of thinking the level of the Renaissance that the horrors portended in the drive for war can and must be overcome *LaRouche's Criterion for Leadership* Lyndon LaRouche,2018-06-08 This is the edited transcript of the May 31 2018 Schiller Institute New Paradigm webcast an interview with the founder of the Schiller Institutes Helga Zepp LaRouche She was interviewed by Harley Schlanger A video of the webcast is available Note Italy s President Mattarella reversed course and accepted a reshuffled Lega Five Star government including Paolo Savona

immediately after this interview was concluded Harley Schlanger Hello Welcome to the Schiller Institute weekly international webcast featuring the founder of the Schiller Institutes Helga Zepp LaRouche We re in a very fast moving strategic situation a lot of important developments going on probably the most significant being the coup carried out this week in Italy on behalf of the European Central Bank ECB the European Union and the City of London I think the broader implications of the situation in Italy are very poorly understood in the United States Helga why don t we start with that Helga Zepp LaRouche Yes It is a dramatic situation The President of Italy Sergio Mattarella has refused a government proposed by a majorityelected coalition of the Lega party and the Five Star Movement party because these two parties had selected Paolo Savona for Minister of Economy and Finances Savona is an establishment figure He began his career in the research service of the Bank of Italy Italy s central bank Among many other positions he has been President of Confindustria the industrialists association of Italy and he was Minister of Industry Commerce and Craftsmanship in a previous government He was pro euro in the beginning but after he saw the terrible consequences for the Italian economy and society of the EU policies and especially of the Eurozone membership for Italy he turned into a euro critical person a so called euroskeptic He says that just as it was done to Italy by the Versailles Treaty of 1919 the euro is now dictating terms to Italy it is a complete debt prison for all the nations affected by it Savona has said that therefore Italy needs a Plan B but he made totally clear before the possibility of becoming a minister came up that he did not intend for Italy to leave the euro but that together with the other affected south European nations he just wanted Italy to negotiate better conditions to stop the austerity to have investment in the real economy and to renegotiate the Maastricht Treaty the Stability Pact But that was obviously too much for Brussels It exerted pressure on Italian President Mattarella to reject Savona and his plans especially via ECB President Mario Draghi who was mentioned in the Italian media This is incredible Here you have a government elected by a majority of the people When Mattarella announced he could not agree to this new government he said that it was because the presence of Savona would worry foreign investors This has caused a complete scandal and also a complete backlash because such a blatant democracy has been shown not to exist in the Eurozone End Game Against the British Monarchy Lyndon LaRouche,2015-05-29 A Mission Statement May 21 Lyndon H LaRouche Jr had arrived in India with a group of U S forces when word arrived in April 1945 that President Franklin Roosevelt had died A group of soldiers asked to have an evening meeting with LaRouche He simply told them the President is dead and we have to ourselves all the more assemble ourselves and devote ourselves to the mission of President Roosevelt That was the beginning of Lyndon LaRouche s mission now almost exactly seventy years old which still today is not over although it has now come to a critical fork in the road over the past roughly two weeks We were coming towards the end of the actual conflict in Europe and then beyond LaRouche remembered today And so what I was left with was the Southeast Asia area I got more or less tied to that region plus Russia And what I otherwise had gotten into LaRouche wrote to General Dwight Eisenhower in 1948 asking him to run for President which would have denied the

wretched Harry Truman a second term and replaced him with someone who aspired to what Franklin Roosevelt had represented At that time Eisenhower was being brought in as the new president of Columbia University in New York Eisenhower was the one person I had access to LaRouche said today He was then going into his position at Columbia that was my access to him We now know that all four of Franklin Roosevelt s surviving sons were themselves also writing just such letters to Eisenhower at the same time Nevertheless he waited out Truman s term before running and winning in 1952 What some regard as LaRouche s excursion into the socialist movement during the 1950s and early 1960s was actually much more specific He supported and then joined the Socialist Workers Party an American Trotskyist party because it was fighting McCarthyism better called Trumanism as LaRouche was also doing on his own No other such national organization was doing this including the Communist Party

Executive Intelligence Review Lyndon H. Larouche, Jr., 2014-10-03 From the Editors We preface our ongoing indepth coverage of the BRICS process now sweeping the world with a special appeal from Lyndon LaRouche which may catch you by surprise What LaRouche is stressing is the uncomfortable truth that under Obama as President the United States is a captive nation under the control of a British imperial policy which is taking us very quickly toward an outright Nazi dictatorship Already Americans especially in Congress are acting as if a dictatorship were already fully in place Congressmen refuse to assert their Constitutional obligation to decide on war and peace even as they admit the President is lying and acting unconstitutionally They refuse to implement the obvious first step in protecting the nation from another impending financial crash by enacting a Glass Steagall law which the population wants but Obama and Wall Street oppose If their bodies are not imprisoned their minds and wills are Thus our nation is walking down the path to doom as our stories on Obama s health care genocide National and the Ebola epidemic now sweeping West Africa Economics should make clear If action is not taken to stop this process now by the time people decide to resist a full dictatorship may prevent them from doing so LaRouche has sounded the alarm and the action must follow to oust Obama and his corrupt cronies like Speaker of the House John Boehner and turn to the global alliance which is shaping a real future The hope is that leadership in the U S will emerge to link up with that of the BRICS nations which are expressing a new spirit of the age for human creativity and progress We highlight Lyndon LaRouche s outlook on this process in our cover story Feature and then present four case studies of how a new outlook has taken over the nations of India Argentina Bolivia and Egypt We also have a first hand report on Prime Minister Modi s historic event at New York s Madison Square Garden Sept 27 where he inspired some 20 000 Indian Americans and others with a vision larger than India itself a vision for the whole human family Don t miss Helga Zepp LaRouche s strategic overview this week following up on her recent call for a new inclusive security architecture International Finally we point your attention to our latest exclusive on the Saudi role in funding the 9 11 terrorists National ammunition for the immediate fight to stop today s terror threat and to impeach Obama who is carrying out a treasonous coverup for their crimes

In the digital age, access to information has become easier than ever before. The ability to download Brunelleschi Executive Intelligence Review Issue has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Brunelleschi Executive Intelligence Review Issue has opened up a world of possibilities. Downloading Brunelleschi Executive Intelligence Review Issue provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Brunelleschi Executive Intelligence Review Issue has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Brunelleschi Executive Intelligence Review Issue. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Brunelleschi Executive Intelligence Review Issue. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Brunelleschi Executive Intelligence Review Issue, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To

protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Brunelleschi Executive Intelligence Review Issue has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
