Autism, Now What? Susan Larson Kidd, Susan Larson-Kidd, 2011-06-15 The book covers the key aspects of life with a child on the autism spectrum including basics such as sleeping eating and toileting through adapting the home creating routines and exploring therapy Strategies are outlined simply and clearly and are firmly grounded in the author's extensive experience of supporting children with autism Instructional Strategies for Students With Mild, Moderate, and Severe

Intellectual Disability Richard M. Gargiulo, Emily C. Bouck, SAGE Publications, Inc., 2017-01-20 Instructional Strategies for Students with Mild Moderate and Severe Intellectual Disability supports teacher educators who are preparing pre service or in service teachers to instruct students with intellectual disability from preschool through transition As a solid research based methods textbook it focuses on providing strategies and approaches for how to teach across the spectrum of intellectual abilities and shows how teaching these students involves attention to evidence based practice The book presents academic functional and behavioral instructional strategies for all these populations Teaching Your Child with Love and

Skill Joyce Show, 2012-04-15 Parents of children with autism can often feel out of their depth when it comes to nurturing their child's learning and development. This book helps parents to make sense of the baffling array of educational interventions available, showing how to adapt different strategies to meet the specific needs of their child, including those with moderate to severe autism. Guided by love, faith, and unwavering resolve, Joyce Show offers practical advice based on her experiences as both a mother and a physician. She takes the reader by the hand through all the steps of cognitive, social, and emotional development, from initial engagement to abstract thinking, and provides straightforward primers for popular interventions such as Floortime and Applied Behavior Analysis (ABA). Parents will learn how to motivate, play, build up communication, deal with challenging behaviors, and teach important everyday life skills while growing in a trusting relationship with their child. This book offers encouragement and guidance to the parents of any child on the autism spectrum, whether high or low functioning, as well as the teachers, therapists, family members, and friends who support them. **The**

Parents' Guide to Teaching Kids with Asperger Syndrome and Similar ASDs Real-Life Skills for Independence

Patricia Romanowski, 2011-10-25 The definitive resource for teaching kids with Asperger syndrome the life skills that build independence, confidence, and self-esteem. Children with autism spectrum disorders learn differently. Our kids' choices are too often limited, and their paths to success restricted, not by a lack of intellectual ability but by deficits in acquiring, applying, and generalizing basic life skills. Success in school, at home, on the playground, and beyond depends on mastering countless basic living skills that most other kids just pick up almost by osmosis. This book shows parents how to teach these so-called easy skills to complex learners. This is the first book for parents and caregivers of kids with Asperger syndrome and similar learning profiles that features strategies based on applied behavior analysis, the most widely accepted, evidence-based, and effective teaching method for learners with ASDs, including how to identify critical skills appropriate for your child's age, how to teach them, and why. Implement new techniques that can replace, mimic, prompt, override, or impose missing order on your child's learning style. Design a curriculum for your child that reduces reliance on prompts, includes parents, and promotes new learning, new behaviors, and independence. Behavioral Parent Training to Address Sleep Disturbances in Young Children with ASD

Cynthia R. Johnson, 2025 The Sleep Parent Training (SLePT) Program was developed for young children with autism spectrum disorder and co-occurring sleep disturbances and tested in clinical trials. The manual is based on behavioral analytic principles and covers approaches to address bedtime challenges, delayed sleep onset, night wakings, sleep association problems, and early morning wakings. The manualized intervention includes a therapist guide and an accompanying parent workbook. The therapist guide is designed to provide session-by-session guidance and to lead therapists from various backgrounds to help parents improve their child's sleep concerns. The five-session intervention covers an overview of the causes of sleep disturbances in autistic children, as well as strategies to address the common behavioral sleep problems experienced by autistic children. This therapist guide includes therapist scripts, activity sheets, and treatment fidelity

checklists It also includes case examples data collection forms and a sleep behavior plan The intervention is intended to be delivered individually but may be delivered in person or virtually and ideas for virtual delivery are included While manualized the intervention is designed to allow for personalized tailoring based on the child s age and skills and parent preferences

Visual Supports for People with Autism Marlene J. Cohen, Donna L.
