Advanced Glaucoma Surgery Essentials In Ophthalmology:

Advanced Glaucoma Surgery Ahmad A. Aref, Rohit Varma, 2015-11-04 This text provides expert instruction on the techniques currently employed for the surgical treatment of glaucomatous disease covering both the host of novel microinvasive devices for treatment of milder stages and the refined strategies that enhance success rates in patients with advanced disease. The critical steps in each procedure are clearly described with the aid of many high quality illustrations and surgical videos. Pearls and pitfalls of the various techniques are highlighted and helpful information is provided on indications, preoperative considerations, potential intra and postoperative complications and strategies for reducing the incidence of such adverse events. Each treatment method is addressed in a dedicated stand alone chapter ensuring ease of reference for the practitioner. Readers will find this book written by internationally recognized experts in the field to be an exceptional source of up to date information on advanced glaucoma surgical techniques.

Becker-Shaffer's Diagnosis and Therapy of the Glaucomas E-Book Robert L. Stamper, Marc F. Lieberman, Michael V. Drake, 2009-06-18 Authored by three prominent specialists in the field this text provides comprehensive coverage of diagnostic and treatment modalities for optimal glaucoma management. Revised throughout this new edition presents the latest guidance in clinical examination, randomized trials, medical treatment, laser therapy and surgical procedures. Hundreds of illustrations with many classic black and white figures from the previous editions supplemented with new color images depict the features of glaucomas and step by step procedures for their management while expanded use of highlighted boxes, lists and summary tables make the material easy to access. Evidence based and updated information on all aspects of the glaucomas including physiology, genetics, interventional trials and new surgical techniques offer a well rounded foundation of knowledge for making the most informed diagnoses and choosing the most effective course of treatment. Combines the cumulative experience of three prominent glaucoma specialists addressing a full range of clinical needs for practitioners of all levels for a uniquely written, coherent perspective. Includes extensive references to current and historically important sources to provide comprehensive interpretation of the latest medical literature. Synthesizes a classical approach to the glaucomas based on seven earlier editions spanning over 40 years with the most up to date evidence based and epidemiologically derived classifications and outcomes. Coherently correlates with authoritative consensus documents on key areas of glaucoma drawn up by the world wide specialists of the World Glaucoma Association and reprinted in the text. Revamps traditional teachings on the angle closure glaucomas in concert with the newest international literature and technologies to keep you up to date on the latest advances. Illustrates detailed surgical interventions applicable to the complete spectrum of clinical settings from the developing world through contemporary operating rooms. Examines the newest and most promising developments in pharmacology, laser and surgical advances for glaucoma management to enable you to choose the most effective patient approach. Illustrates invaluable but little known instruments for clinical and research diagnoses including optic nerve cupping.

The Glaucoma Book Paul N. Schacknow, John R. Samples, 2010-06-10 Putting together a comprehensive multiauthored text is a daunting task. However the benefits may justify the effort. Such is the case with regards to the present Glaucoma Book. It is not likely that many ophthalmologists or others will decide at the end of a busy day to pour themselves a cocktail and settle into a comfortable chair with this large tome in hand with the intent of reading it from start to finish. A pity. It would make several enjoyable and profitable days of good reading. The text starts with comments by an individual who is strongly grounded in the fundamentals of being a good physician. Ivan Goldberg has used his brilliance his wide international experiences and knowledge and his commitment to assuring that physicians know their craft to provide a penetrating perspective on ophthalmology today and tomorrow. The Glaucoma Book ends with commentaries by the editors John Samples a true physician scientist and Paul Schacknow an experienced community based clinician. Samples essay What Really Causes Glaucoma nicely describes the leading theories underlying the cell biology of glaucoma. In What Do We Know Now What Do We Need to Know About Glaucoma Schacknow offers an essay on some of the controversial ideas raised within the book and speculates on future research.

Clinical Guide to Comprehensive Ophthalmology David A. Lee, Eve J. Higginbotham, 1999 To keep pace in today's competitive environment comprehensive ophthalmologists must broaden the scope of their practice while still offering the highest standard of care in a time pressured setting. This authoritative new text in a clear a user friendly format provides the wide coverage and quick access demanded in day to day practice. The book's practical patient oriented approach gives pointers for carrying out an examination and determining diagnosis and treatment strategies. To enable quick access to needed information the text begins with the patient's presenting signs and symptoms and progresses to in depth coverage of individual clinical disorders. All are arranged by anatomical and functional systems. This is the ideal choice for practitioners and residents who need an authoritative and practical resource for quick everyday reference.

Essential Ophthalmic Surgery Alexander J. E. Foss, 2001 Covers local anaesthetic agents and techniques. This book describes commonly performed operations and the complications that may be encountered including how to avoid and how to deal with them. It is useful for professionals who work with ophthalmic patients such as nursing staff and optometrists.
