## **Advancing Women In Science An International Perspective:**

**Advancing Women in Science** Willie Pearson, Jr., Lisa M. Frehill, Connie L. McNeely, 2015-04-23 Many countries have implemented policies to increase the number and quality of scientific researchers as a means to foster innovation and spur economic development and progress To that end grounded in a view of women as a rich yet underutilized knowledge and labor resource a great deal of recent attention has focused on encouraging women to pursue education and careers in science even in countries with longstanding dominant patriarchal regimes Yet overall science remains an area in which girls and women are persistently disadvantaged This book addresses that situation It bridges the gap between individual and societal level perspectives on women in science in a search for systematic solutions to the challenge of building an inclusive and productive scientific workforce capable of creating the innovation needed for economic growth and societal wellbeing This book examines both the role of gender as an organizing principle of social life and the relative position of women scientists within national and international labor markets Weaving together and engaging research on globalization the social organization of science and gendered societal relations as key social forces this book addresses critical issues affecting women s contributions and participation in science Also while considering women s representation in science as a whole examinations of women in the chemical sciences computing mathematics and statistics are offered as examples to provide insights into how differing disciplinary cultures functional tasks and socio historical conditions can affect the advancement of women in science relative to important variations in educational and occupational realities Edited by three social scientists recognized for their expertise in science and technology policy education workforce participation and stratification this book includes contributions from an intellectually diverse group of international scholars and analysts and features compelling cases and initiatives from around the world with implications for research industry practice education and policy development

**Gender, Science and Innovation** Helen Lawton Smith, Colette Henry, Henry Etzkowitz, Alexandra Poulouvasilis, 2020-01-31 Gender Science and Innovation explores the contemporary challenges facing women scientists in academia and develops effective strategies to improve gender equality Addressing an important gap in current knowledge chapters offer a range of international perspectives from diverse contexts countries and institutional settings This book is an essential contribution to the literature for academics researchers and policy makers concerned with improving gender equality in academia and seeking to learn from the experiences of others

*Annual Review of Comparative and International Education 2018* Alexander W. Wiseman, 2019-09-27 This year s edition brings together research and essays on comparative education trends and directions written by professional and scholarly leaders in the field Topics covered include theoretical and methodological developments reports on research to practice area studies and the diversification of comparative and international education

[Routledge Handbook of Politics and Technology](#) Ulrich Hilpert, 2015-10-05 This handbook provides a comprehensive global survey of the politics of technology Written by an outstanding line up of

distinguished scholars in the field the handbook covers all aspects of the relationship between politics and technology including Demand and support for new technologies and innovation by the state The effects of technology policies Technology development and innovation difference between various countries and regions Policy instruments and techno industrial innovation Dynamism and change as outcomes of government policies Driving forces for science and innovative development Forming the basis of this handbook are examples of regional development country studies and a rich variety of technologies as well as topical issues such as divergent political interests in relation to technology and the economic exploitation of technologies Employing a comparative and interdisciplinary approach in order to analyse the interplay between government activities and the development of new technologies this handbook will be an invaluable resource for all students scholars and practitioners working in the politics of technology public policy and policy analysis

*Centering Gender in the Era of Digital and Green Transition* Kristie Drucza, Amira Kaddour, Sujata Ganguly, Adel M. Sarea, 2023-09-19

This edited volume examines the importance of centering gender in research and policymaking focused on climate change environmental sustainability and digital technology Chapters unpack how the transition to a green and digital future affects various fields and industry sectors including STEM agriculture and energy as well as why gender transformative approaches particularly the production and analysis of gender inclusive disaggregated data should be included in those transitions The editors and authors also look at the positive impact of these considerations on economic growth and poverty eradication Finally this book presents an ideal utopian view of what a gender equal and inclusive world that has transitioned to green industries and embraced digital technologies might look like This book will be of interest to scholars researchers students and policymakers across the Social Sciences including Sociology Anthropology Gender Studies Science Technology Studies and Economics

**Gendered Transformative Initiatives in South Asia** Reema Bhatia, 2025-03-18 This volume discusses gendered transformative initiatives in South Asian feminism discussing gender norms labour and market participation by women along with family planning reproductive rights and initiatives for the social and financial empowerment of women in South Asia Gender is a part of our everyday lived reality It has been one of the key structuring principles of social interaction across societies The context may be specific to a society but it is also universal since it intertwines with everyone's lives This book uses a bricoleur approach to understanding gender as a lived experience These explorations examine the ways in which gendered identity is negotiated and lived The volume uses a multi methodological and multidisciplinary approach to discuss issues around conflict work queer identities intersectionality and single women across Pakistan Sri Lanka and Bangladesh Part of the Social Movements and Transformative Dissent series this volume will be of interest to students and researchers of gender studies women's studies sociology economics development studies political science cultural studies and South Asian studies
