ADVANCED MATERIALS TECHNOLOGIES

A detailed 3D illustration of a laser cutting process. A large, metallic, cylindrical laser head is positioned above a flexible material that is being cut. The material has a complex, repeating pattern of blue and yellow lines, resembling a circuit board or a specialized textile. A bright blue laser beam is visible at the point of contact between the head and the material, creating a glowing effect. The background is dark, emphasizing the metallic surfaces and the vibrant colors of the material being cut.
