The collection makes the compelling case that migration does not occur in a vacuum rather it is driven by and reacts to various factors including the political economic and cultural worlds in which individuals live. The 25 chapters reveal the complex nature of migration from various angles not only looking at how policy affects migrants but also how individuals and marginalized groups are impacted by such acts. In Part I contributors examine migration law debating the role of the state in managing migration flows and investigating existing migration policy. Part II offers theories and methods that integrate communication studies, political science and law into the study of migration including cultural fusion theory and Gebserian theory. Part III looks at how contemporary perceptions of migration and migrants intersect with media representations across media outlets worldwide. Finally Part IV offers case studies that present the intricacies of migration within different cultural, national and political groups. Migration is the key political, economic and cultural issue of our time and this companion takes the next step in the debate namely the effects of the how in addition to the how and why. Researchers and students of communication, politics, media and law will find this an invaluable intervention. **Gender Budgeting Report** Bangladesh. Artha Bibhāga, 2018

Learning and Development Effectiveness in Organisations Thomas N. Garavan, Fergal O'Brien, James Duggan, Claire Gubbins, Yanqing Lai, Ronan Carbery, Sinead Heneghan, Ronnie Lannon, Maura Sheehan, Kirsteen Grant, 2020-07-29 This book offers an integrated and contextualised framework for learning and development. However, there is some ambiguity concerning the effectiveness of these activities and it largely remains unclear how they can be best implemented. This book seeks to address this gap in the literature. The authors propose a framework for L D effectiveness based on key findings from reviews, empirical research and meta analyses as well as previously established theoretical frameworks within the field. Combining theory and practice, the new framework this book offers provides key guidance for L D practitioners and researchers interested in the area. **Reading the past, writing the future** UNESCO, 2017-04-10 Aucune information saisie
