Self-Help Tech Support Monica Oboagwina, 2009 Many times helpdesks have limited staff to handle the high volume of support calls This can result in higher hold times or delays in answering your technical questions The answer may be as simple as restarting the computer Having the knowledge of simple technical tools will help you avoid long hold times or a long conversation Not only do you save yourself from frustration from long tech support calls but you also get your computer up and running quicker

Crime Science and Digital Forensics Anthony C. Ijeh, Kevin Curran, 2021-09-14 This volume is a collation of articles on counter forensics practices and digital investigative methods from the perspective of crime science The book also shares alternative dialogue on information security techniques used to protect data from unauthorised access and manipulation Scandals such as those at OPCW and Gatwick Airport have reinforced the importance of crime science and the need to take proactive measures rather than a wait and see approach currently used by many organisations This book proposes a new approach in dealing with cybercrime and unsociable behavior involving remote technologies using a combination of evidence based disciplines in order to enhance cybersecurity and authorised controls It starts by providing a rationale for combining selected disciplines to enhance cybersecurity by discussing relevant theories and highlighting the features that strengthen privacy when mixed The essence of a holistic model is brought about by the challenge facing digital forensic professionals within environments where tested investigative practices are unable to provide satisfactory evidence and security This book will be of interest to students digital forensic and cyber security practitioners and policy makers It marks a new route in the study of combined disciplines to tackle cybercrime using digital investigations and crime science
