

APA (6th edition) Referencing Style

This referencing style sheet is to be used in conjunction with the Library's general Guide to Citing & Referencing. The information is based on the following manual from the American Psychological Association (APA):

American Psychological Association. (2010). *Publication manual of the American Psychological Association* (6th ed.). Washington, DC: Author.

For help with referencing items not covered in this guide:

You might like to refer to either the *Publication manual of the American Psychological Association* (6th ed.) or the more compact version, *Concise rules of APA style* (6th ed.). Both manuals are available in the Library, on Level 3, at shelf mark 808.06615 AME. You can also access the following ebook via the Library Catalogue: [The complete guide to referencing and avoiding plagiarism](#) – this includes examples for APA and other styles.

Citation

The APA uses an author-date style of referencing with details entered in round brackets, for example:

The traditional approach to human cognition is over-simplified in assuming that processing is typically serial (Eysenck & Keane, 2010).

Treatment of multiple authors: when a work has two authors, cite both authors every time. When a work has three, four or five authors, cite all authors the first time a reference occurs. In subsequent citations, include only the surname of the first author followed by et al. See:

Kisangau, Lyanuu, Hosea, and Joseph (2007) found that ... [first time cited]

Kisangau et al. (2007) found that ... [subsequent citations]

When a work has six or more authors, cite only the surname of the first author followed by et al. and the year of publication for the first and subsequent citations.

Reference list

The reference list should contain full details of all the sources mentioned in your text, arranged alphabetically by surname of first author.

Reference examples

Below are some examples of the more common types of document you might want to reference. Each gives the APA 6th ed. format for the reference, followed by an example. **Treatment of multiple authors within reference list:** when authors number eight or more, include the first six authors' names then insert three ellipses and add the last author's name. (For example:

Kisangau, A., Lyanuu, B., Hosea, C., Joseph, D., Rogers, T., Tyree, C., ..., Humphreys, L. J. (2007). *Psychology*. Birmingham: ABC Press.

Hatfield,Vicki L. Wise,2023-07-03 Student affairs professionals are increasingly being called upon to become scholar practitioners to reflect on and share their experiences to further the knowledge of the

field and to disseminate practices to promote student learning and development. This book offers practical guidance to anyone in the field interested in presenting at conferences or publishing in scholarly and professional journals and sets the work of scholarly practice in the context of its vital role of influencing and shaping the future of student affairs and in promoting continuous learning. The authors demystify the processes of producing research and scholarly work, address motivation and barriers such as time constraints or confidence and provide advice on developing ideas, writing, getting feedback, staying on task, identifying the appropriate outlets and venues for ideas, submitting proposals as well as on speaking and presentation skills. It also directs readers to books and online resources and presents the reflections of senior student affairs officers on scholarship in the profession. As the authors state, student affairs professionals are often in the best position to test the myths about what really works for college students to have access, persist and graduate. Through their daily interactions with students, they develop the grounding for theories and strategies to improve the college experience, none of which can be advanced without scholarship without presenting and writing and the debate that they stimulate. This book is intended for student affairs professionals at all levels. It sets the context for those starting their careers as they navigate and understand their new roles, aims to inspire mid level professionals to present or write about their experiences and contributions and offers senior administrators strategies to pursue their own scholarship while creating a supportive environment for their staff to do so and develop their agency and professional growth in the process.
