Companies should aim to eliminate non value adding activities in their operational processes Having needless waste in workflows can undermine a company s profitability potential The job of a consultant is typically to look at what an organization does as a whole then work to increase efficiency in most areas Specifically they strive to render a business more profitable usually by helping the business owners to reduce costs and grow revenue streams In order to achieve this objective the consultant might recommend personnel changes new systems alternative practices or new procedures to be implemented Companies should not only aim to bolster their operational efficiencies but should also strive to minimize their operational inefficiencies Companies not only rely on consultants to help them to enhance their operational efficiencies but to also help them to amplify their sales volume revenue and profits Freelance consultants are not limited to furnishing their service offerings to a single client Most consultants are self employed and work on a contractual basis Freelance consultants are able to work remotely customize their own schedule and furnish their service offerings to clients from around the world There are a myriad of disparate types of consultants Some of the ample disparate types of consultants encompass business consultants management consultants marketing consultants social media consultant operations consultants financial advisory consultants information technology consultants and human resource consultants Certain consultants specialize in one niche area such as retail sales Consultants might then specialize further under that area of expertise focusing on points such as inventory control personnel and reorganizing corporate structure Consultants might also work with start up companies to design the best entry into the marketplace or alternatively may work with companies that are looking to downsize and sell their companies The competencies can vary from consultant to consultant It would ultimately behoove a prospective consultant to explore the various consultant career paths

COHEN Ph.D., 2009-06-03 Getting started in consulting can be a tricky prospect How much should you charge What type of language should exist in the contract How can you find clients Written by a veteran consultant with hundreds of consulting engagements to his credit How to Make it Big as a Consultant is filled with detailed advice on every aspect of starting up and maintaining a highly lucrative consulting career The book helps readers get a handle on the legal tax and insurance issues involved in setting up and running the business understand what clients really need create the structure for an assignment proposals pricing contracts scheduling market the business solve clients problems using the Harvard Case Study Method Completely updated and revised throughout the fourth edition features new chapters on developing strategies for clients leading consulting teams and more This trusted guidebook will help any aspiring reader become the kind of outstanding consultant that clients will turn to again and again *Disruptive consulting: How to consistently earn \$850/hour as a consultant* Adriaan Brits, 2015-11-09 Disruptive consulting How I consistently earn 850 hour as a consultant A consulting career offers unrivalled freedom and flexibility Proliferated by the mindset of alliance rather than employment which has gripped the corporate world it has become an increasingly desired occupation for most professionals Today more than ever corporates are aware of the benefits consulting offers namely access to a fresh perspective and expertise without the need to commitment or to involve a new player in the intricate sensitive or political aspects of the organization It really is a win win to both the consultant and the client however many consultants are yet to find a strategy to make sure their diaries duly overbooked In this publication I am going to share with you how I consistently earn 850 hour as a solo consultant with clients chasing me to fill up my diary Just as Amazon disrupted retail and Airbnb disrupted hotels this publication is about how to disrupt the consulting industry You will learn powerful effective hacks to obtain highly paid consultancy work It is therefore assumed that you are already competent and professional in your field but that you are lacking opportunities for consulting and need a proven way to make sure clients will chase you for business and not the other way around However in this publication we are not going to focus on how to become competent in your field how to behave properly and professionally towards clients or for that matter how to draw up a legal agreement It is therefore not intended as a guide for incompetent individuals to pretend that they are consultants and to get paid for it Neither is it intended as a guide on how to access large pots of government funding without reciprocating value The good news is that the following four activities does not form part

of this proven strategy at all 1 Spending any money on advertising 2 Making any cold calls 3 Begging for referrals 4 Working as a slave for Facebook or any other social media platform to get noticed Since my background is in marketing I established a way of making my marketing activities self funded or as the CIA would call it living of the land In fact by the time a potential client contacts me most of the selling has already been done and it is more a matter of determining whether the client will be a good fit for me or not In all honesty whilst I have a MSC in Marketing and owned a few companies I would not go as far as to describe myself as the world s leading authority on consulting however I have developed one of the most innovative ways to ensure that my diary is ALWAYS full and that I can decline any work which I do not think is going to be a good fit The model that we are going to discuss is perfectly suitable for consultants in the areas of Business Finance IT Marketing Sales Security and a range of professions Whether you are a technical business or executive consultant the principles will still apply Please read my feedback on various digital channels before starting with the book Enjoy your newly found profession
