Aoac Methods Manual:

Principles and Practices of Method Validation Aleš Fajgelj, Árpád Ambrus, 2000 Analytical chemists and representatives of government agencies standards organizations and accreditation bodies involved in method validation gathered for an international workshop in November 1999 in Budapest to share experiences and work towards developing guidelines for validating analytical methods in general and specifically for determining pesticide and veterinary drug residues in food. The 18 lectures include discussions of validating analytical data in a research and development environment the effects of sample processing on pesticide residues in fruits and vegetables estimating the significance of matrix induced chromatographic effects and a worked example for validating a multi residue method.
