

# Infection Prevention and You

You are an important part of infection prevention!

If you are having surgery, ask if you should shower with a germ-killing soap ahead of time.

Speak up for your care!

Clean your hands and make sure everyone around you does too.

Take medications as directed.

Sneeze and cough into your elbow, not your hand.

Ask about safe injection practices. Remember: **One Needle, One Syringe, only One Time.**

Every day, ask if you still need your catheter.

If your room looks dirty, ask to have it cleaned.
