Ingram, Bruce Baldwin, 2001 In this inspired new edition the authors illustrate accounting not as a set of technical procedures to be memorized but as a way of identifying and understanding business problems and a means for evaluating potential solutions Now in its fourth edition the primary goal of this text remains the same to teach students to understand a company's financial statement information This unique organization introduces students to how a business uses accounting information and then emphasizes activities of the firm in the second half of the book This engages
