General Intelligence Reasoning CIVIL Electrical Mechanical Solved Papers **Cheap and Tasteful Dwellings** Jan  
Jennings,2005 In 1879 Carpentry and Building magazine launched its first house design competition for a cheap house Forty  
two competitions eighty six winning designs and a slew of near winners and losers resulted in a body of work that offers an  
entire history of architectural culture The competitions represented a vital period of transition in delineating roles and  
responsibilities of architectural services and building trades The contests helped to define the training education and values  
of practical architects and to solidify house planning ideals The lives and work of ordinary architects who competed in  
Carpentry and Building contests offer a reinterpretation of architectural professionalization in this time period Cheap and  
Tasteful Dwellings thoroughly explores the results of these competitions conducted over a thirty year period from 1879 to  
1909 The book outlines the philosophy behind and procedures developed for running the competitions looks at  
characteristics of the eighty six winners of the competitions examines the nature of architectural practices during the period  
analyzes the winning competition designs and provides biographical details of competition winners and losers A landmark  
book in architectural history Cheap and Tasteful Dwellings makes a compelling case for the theory of convenient  
arrangement its history its role its principles its relationship to contemporary interior design education and its meaning to  
American architecture More importantly the book explains the impact of Carpentry and Building s contests in furthering the  
tenets of convenient arrangement for house design By using extensive material from the magazine Jennings leaves little  
doubt as to how important this overlooked story is to the history of American architecture as a whole **Examination**
