Algeria Frances Undeclared War Making Of The:

Algeria Martin Evans,2011-11-24 Invaded in 1830 populated by one million settlers who co existed uneasily with nine million Arabs and Berbers Algeria was different from other French colonies because it was administered as an integral part of France in theory no different from Normandy or Brittany The depth and scale of the colonization process explains why the Algerian War of 1954 to 1962 was one of the longest and most violent of the decolonization struggles An undeclared war in the sense that there was no formal beginning of hostilities the conflict produced huge tensions that brought down four governments ended the Fourth Republic in 1958 and mired the French army in accusations of torture and mass human rights abuses In carefully re examining the origins and consequences of the conflict Martin Evans argues that it was the Socialist led Republican Front in power from January 1956 until May 1957 which was the defining moment in the war rather than the later administration under De Gaulle Predicated on the belief in the universal civilizing mission of the Fourth Republic coupled with the conviction that Algerian nationalism was feudal and religiously fanatical in character the Republican Front dramatically intensified the war in the spring of 1956 Drawing upon previously classified archival sources as well as new oral testimonies France s Undeclared War is the first major English language history of the Algerian conflict in a generation Throughout Martin Evans underlines the ultimately irreconcilable conflict of values between the Republican Front and Algerian nationalism explaining how this clash produced patterns of thought and action such as the institutionalization of torture and the raising of pro French Muslim militias which tragically polarized choices and framed all stages of the conflict

The French Intifada Andrew Hussey,2014-04-22 A provocative rethinking of France s long relationship with the Arab world To fully understand both the social and political pressures wracking contemporary France and indeed all of Europe as well as major events from the Arab Spring in the Middle East to the tensions in Mali Andrew Hussey believes that we have to look beyond the confines of domestic horizons As much as unemployment economic stagnation and social deprivation exacerbate the ongoing turmoil in the banlieues the root of the problem lies elsewhere in the continuing fallout from Europe s colonial era Combining a fascinating and compulsively readable mix of history literature and politics with his years of personal experience visiting the banlieues and countries across the Arab world especially Algeria Hussey attempts to make sense of the present situation In the course of teasing out the myriad interconnections between past and present in Algeria Morocco Tunisia Beirut and Western Europe The French Intifada shows that the defining conflict of the twenty first century will not be between Islam and the West but between two dramatically different experiences of the world the colonizers and the colonized [Peace, Decolonization, and the Practice of Solidarity](#) Rob Skinner,2023-10-05 This book shows that the connected histories of decolonization and globalization concern the practices of individuals and movements as much as they do the ideologies of states institutions and organizations Viewing decolonization through non state activist practices and setting anti colonial solidarity in the context of the methods of contemporary global peace movements it argues that

seemingly marginal histories can illuminate aspects of the end of empire that are not readily apparent in studies centred on state diplomacy and nationalist movements Focusing on a group of British and American activists including the pacifist campaigner A J Muste the anti apartheid priest Michael Scott and the civil rights organiser Bayard Rustin Skinner explores connected global histories of anti nuclear peace campaigns anti colonialism and decolonization to illuminate new perspectives on the end of empire and the Cold War Studying a failed attempt to infiltrate the French atom bomb test site in southern Algeria and a mass march across the border between Tanganyika and Northern Rhodesia that never took place these stories provide valuable insights into the interactions between local and global scales of historical experience In presenting these histories this book demonstrates how global and transnational histories can challenge and disrupt rather than reinforce hierarchies of power and privileges In doing so it also contributes to ongoing debates surrounding the nature of decolonization as a historical phenomenon by focusing on the practices of activism that shaped and were shaped by the political and intellectual structures of decolonization

France and Its Empire Since 1870

Alice L. Conklin, Sarah Fishman, Robert Zaretsky, 2015 Providing an up to date synthesis of the history of an extraordinary nation one that has been shrouded in myths many of its own making France and Its Empire Since 1870 seeks both to understand these myths and to uncover the complicated and often contradictory realities that underpin them It situates modern French history in transnational and global contexts and also integrates the themes of imperialism and immigration into the traditional narrative Authors Alice L Conklin Sarah Fishman and Robert Zaretsky begin with the premise that while France and the US are sister republics they also exhibit profound differences that are as compelling as their apparent similarities The authors frame the book around the contested emergence of the French Republic a form of government that finally appears to have a permanent status in France but whose birth pangs were much more protracted than those of the American Republic Presenting a lively and coherent narrative of the major developments in France s tumultuous history since 1870 the authors organize the chapters around the country s many turning points and confrontations They also offer detailed analyses of politics society and culture considering the diverse viewpoints of men and women from every background including the working class and the bourgeoisie immigrants Catholics Jews and Muslims Bretons and Algerians rebellious youth and gays and lesbians
