and Technology Historical Societal and Professional Perspectives The roles of women in technology are more diverse  
controversial and important today than ever before Since the 1950s women have tried to technologically empower  
themselves particularly by entering the engineering profession They have done so in great numbers although today it is  
glaringly obvious that women are still underrepresented in engineering Women in the field still face gender based obstacles  
expectations and biases despite decades of efforts to eradicate these problems These issues are addressed      Reference &
