Alien Autopsy Inquest:

Alien Autopsy Inquest Philip Mantle, 2007 Alien Autopsy Inquest is a searching insightful and much needed examination of the truths and lies behind the famous alien autopsy film. It shines light into the shadows surrounding this world famous piece of film. Is it a fake or not? This engaging mystery story takes the reader in some very surprising directions. A most interesting and provocative book. Whitley Streiber author of international bestseller Communion. Philip's work is remarkable a good honest investigation with all the twists and turns of a thriller. The truth is in here somewhere. Ray Santilli owner of the Alien Autopsy Film. The Alien Autopsy Film is either proof of an extraterrestrial presence on Earth and an associated government cover up or the greatest hoax of all time. Philip Mantles book is a fascinating and comprehensive investigation into the greatest and most controversial mystery of our time. Nick Pope head of the Ministry of Defences UFO Project 1991-1994. **Real or Fake** Joe Nickell, 2009-07-17 Will the rare autographed baseball your great uncle gave you put your children through college? Is your grandmother's chest of drawers really a seventeenth century antique or merely a reproduction? A leader in forgery detection and forensic investigation Joe Nickell reveals his secrets to detecting artifacts items in Real or Fake Studies in Authentication. Detailing how the pros determine whether an Abraham Lincoln signature is forged or if a photograph of Emily Dickinson is genuine. Nickell provides the essential tools necessary to identify counterfeits. In this general introduction to the principles of authentication Nickell provides readers with step by step explanations of the science used to detect falsified documents, photographs and other objects. Illustrating methods used on hit shows such as Antiques Roadshow and History Detectives. Nickell recommends that aspiring investigators employ a comprehensive approach to identifying imitations. One should consider the object's provenance, the origin or derivation of an artifact, content clues in the scene or item depicted and material composition, what artifacts are made of as well as the results of scientific analyses including radiographic, spectroscopic, microscopic and microchemical tests. Including fascinating cases drawn from Nickell's illustrious career. Real or Fake combines historical and scientific investigations to reveal reproductions and genuine objects. Nickell explains the warning signs of forgery such as patching and unnatural pen lifts. Chronicles the evolution of writing instruments, inks and papers. Shows readers how to date photographs, papers and other materials and traces the development of photographic processes since the mid nineteenth century. Lavishly illustrated with examples of replicas and authentic objects inspected by Nickell. Real or Fake includes case studies of alleged artifacts including Jack the Ripper's diary, a draft of the Gettysburg Address, notes by Charles Dickens, Jefferson Davis's musket and debris from the Titanic.

Religion, Supernaturalism, the Paranormal and Pseudoscience Homayun Sidky, 2019-11-30 Religion, Supernaturalism, the Paranormal and Pseudoscience provides a comprehensive rejoinder to the challenges posed to science, scientific anthropology, evolutionary theory and rationality by the advocates of supernatural, paranormal and pseudoscientific perspectives and modes of thought associated with the current rise of irrationalism, anti-intellectualism and emboldened

religious fundamentalism and violence Drawing upon H Sidky's scientific anthropological background and ethnographic field research of supernatural and paranormal beliefs and practices in several cultures over three decades the book answers several important questions Why do humans have a proclivity for the supernatural and paranormal thinking Why has humanity remained shackled to sets of ideas inherited from a violent past that have no basis in reality and which bestow an illusionary solace promote bloodshed endless cruelties and fervent hatreds and have come at a high cost Why have ancient superstitions been held as sacred inviolate truths while other aspects of the archaic belief systems of which they were a part have long been discarded Why have not humans outgrown religion and paranormal beliefs *Shadows of Science* Kendrick Frazier,2023-11-07 In this enlightening and entertaining book author and Skeptical Inquirer editor Kendrick Frazier takes readers on a journey to the contentious boundary zone between science and its antagonists pseudoscience pretend science and anti science open hostility to science Pseudoscience romps in the shadows of science but takes on the guise of science to excite sell mislead and deceive the public Anti science denigrates even denies findings of science for ideological ends In this dangerous age of misinformation and dis information we need science's remarkable truth seeking tools more than ever to help counter society's crazier impulses in which opinion beliefs and lies trump facts evidence and truth In one sense *Shadows of Science* is Frazier's love letter to science one of humanity's greatest inventions one we should exalt for its unique ability to find provisional truths about nature In congenial prose he reports on recent discoveries and describes how science works and how its error correcting mechanisms lead eventually to new knowledge He tells the stories of some of our champions of science and reason He describes the little appreciated values of science how it embraces uncertainty and humility and its emphasis on fact based observation and experiment Pseudoscience adopts some of science's language and has a beguiling appeal but there the similarities end Frazier has professionally reported on frontier scientific discoveries and observed and exposed the pretensions and dangers of pseudoscience and anti science his entire career Here he shares his experiences his knowledge and insights and his love and passion for our ability to learn what's real about the natural world and to identify and expose fake science pretend science and anti science in all their multifarious forms *Pseudoscience and the Paranormal* Terence Hines,2010-09-30 Television the movies and computer games fill the minds of their viewers with a daily staple of fantasy from tales of UFO landings haunted houses and communication with the dead to claims of miraculous cures by gifted healers or breakthrough treatments by means of fringe medicine The paranormal is so ubiquitous in one form of entertainment or another that many people easily lose sight of the distinction between the real and the imaginary or they never learn to make the distinction in the first place In this thorough review of pseudoscience and the paranormal in contemporary life psychologist Terence Hines teaches readers how to carefully evaluate all such claims in terms of scientific evidence Hines devotes separate chapters to psychics life after death parapsychology astrology UFOs ancient astronauts cosmic collisions and the Bermuda Triangle faith healing and more New to this second edition are extended sections on

psychoanalysis and pseudopsychologies especially recovered memory therapy satanic ritual abuse facilitated communication and other questionable psychotherapies There are also new chapters on alternative medicine which is now marketed in our drug stores and on environmental pseudoscience with special emphasis on the evidence that certain technologies like cell phones or environmental agents like asbestos cause cancer Finally Hines discusses the psychological causes for belief in the paranormal despite overwhelming evidence to the contrary This valuable highly interesting and completely accessible analysis critiques the whole range of current paranormal claims
