Summary of Bell Hooks's All About Love Everest Media,2022-03-04T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The word love is most often defined as a noun but theorists of love believe we would all love better if we used it as a verb The definition given by psychiatrist M Scott Peck is The will to extend one s self for the purpose of nurturing one s own or another s spiritual growth 2 Love is the will to nurture our own and another person s spiritual growth We can t claim to love someone if we are hurtful and abusive Love and abuse cannot coexist 3 When I was growing up I was given caring attention in my family of origin but I was also told that I was a smart girl

and that I would go crazy if I thought I was so smart This mix of care and unkindness did not positively nurture the growth of my spirit 4 The definition of love that helped me the most was the will to extend yourself for the purpose of nurturing your own or another s spiritual growth It took me years to let go of the patterns of behavior that negated my capacity to give and receive love

Sexual Orientation and Identity Matthew Andler,2025-03-28 Sexual orientation and how we might understand it is a topic that arouses significant controversy Is sexual orientation a natural or social phenomenon Are categories such as queer and straight essential to the human condition or dependent on contingent cultural practices While such questions have been considered from the perspectives of sociology and gender studies they remain relatively underexplored from a philosophical standpoint In this book Matthew Andler breaks new ground examining the metaphysics of sexuality Distinguishing sexual orientation and sexual identity he asks why only certain aspects of sexuality count as sexual orientations arguing that sexual dispositions can only become sexual orientations in virtue of being related to heteropatriarchal kinship structures He then turns to sexual identity arguing that the categories queer and straight are grounded in the political function of sexuality cultures as resisting and or entrenching heteropatriarchal kinship structures Additionally he critiques capitalist expropriations of queerness in pinkwashing He also argues that trans inclusive interpretations of sexuality categories serve everyone who seeks to build a life outside of the narrow provisions of heteropatriarchal kinship structures Sexual Orientation and Identity A Philosophical Analysis will be of interest to those studying the philosophy of gender social metaphysics and gender studies as well as for anyone interested in the conceptual issues underlying debates concerning gender and social justice
