The UAE William Gueraiche, 2016-08-10 William Gueraiche's work is the first scholarly study of the UAE's campaign to establish itself on the international stage and to explore the impact that its economic transformation has had on the country. Emirati society remains at core conservative and the preservation of Arab Islamic identity remains important yet the UAE has the highest proportion of foreigners of any country in the world. What does this mean for the identity of Emiratis living there and what are the implications for foreigners working there? The author also explores the environmental costs of the Dubai lifestyle, its Look East policy and increasing volume of trade with eastern Asia and the ways in which the UAE has sought to challenge the traditional hegemony of Saudi Arabia in the region. In a final chapter the author examines the impact of the economic depression that called the whole representation of Dubai into question. *Marketing in the United Arab Emirates* Claude Clement, 1985 Overseas Business Reports, 1985 Handbook of Research on Global Perspectives on

International Advertising Krom, Ipek, 2022-06-24 International advertising is an important discipline in social sciences studies and though many books and articles have been published surrounding international advertising only a few of them contain information about the advertising industry related to specific international countries and regions. Additional consideration on how advertising is utilized across the world is vital to understand the current best practices, challenges and opportunities in the marketing field. The Handbook of Research on Global Perspectives on International Advertising considers various perspectives on international advertising through global and local lenses and discusses strategies and tactics of advertising across the globe. Covering topics such as branding, political advertising, cultural features and tourism advertising, this reference work is ideal for industry professionals, academicians, practitioners, researchers, scholars, instructors and students.

International Marketing Handbook, 1988 *The Report: Dubai 2014* Oxford Business Group, 2014-01-28 In many respects 2014 marked the transition from strong recovery to promising growth for Dubai. With many exciting projects in the pipeline, not least the hosting of Expo 2020, the emirate is continuing to build on its reputation as a dynamic and international centre for business. Already a regional and global centre for business and finance, Dubai's reputation has been bolstered by the MSCI's decision to upgrade the UAE from frontier to emerging market status in 2014 while the emirate's successful Expo 2020 bid is expected to generate myriad opportunities for private investors across a range of sectors. Construction is thriving once again, driven in large part by strong retail sector growth with various projects including plans for the world's largest mall indicating that the sector will maintain its position as the emirate's biggest GDP contributor moving forward. The transport and logistics framework is set for major expansion in the coming years as well as further cementing the emirate's status as a leading transport and logistics hub, not just regionally but globally too. The continued development of Dubai's retail and hospitality offerings alongside the upgrades to its airports should help to ensure robust growth in visitor numbers from both the region and further afield. **Willing's Press Guide**, 2004 Coverage of publications outside the UK and in non
