**Allegorical Thackeray** Ellen Redling, 2015 This study explores Thackeray as an allegorist rather than a mere satirist In doing so it also enriches and extends current debates on allegorical theory Allegorical Thackeray demonstrates that his major novels *Vanity Fair* *Pendennis* and *The Newcomes* go beyond the satirical and parodic techniques used in his early works and can be interpreted as secularised successors of traditional reader based Christian allegories With this human allegorical focus Thackeray stands against an excessive emphasis on the culturing of the individual self society and the nation which can be perceived in the works of his forerunners and of other Victorian writers such as Charles Dickens Charlotte Bront and Anthony Trollope Thackeray certainly did not believe in the idea of one single authoritarian truth but he seems to suggest that if religious morality is completely replaced by national social or idiosyncratic notions of morality this could lead to detrimental distortions of more lasting and encompassing values Ellen Redling teaches English literature and culture at the University of Heidelberg Series English American Anglistik Amerikanistik Subject Literary Criticism Literature
