web the purpose of this experiment is to describe projectile motion the measured physical quantities that are measured in this experiment include length meter and time second s the physical quantities that will be calculated based on those measurements include speed horizontal motion vertical motion and overall velocity

projectile motion kinematics air resistance parabolic curve - Oct 17 2023

web blast a car out of a cannon and challenge yourself to hit a target learn about projectile motion by firing various objects set parameters such as angle initial speed and mass explore vector representations and add air resistance to
